

FREQUENTLY ASKED QUESTIONS

Contract notice: OJEU S 164-271830

Invitation to tender No. ENER/C1/427-2012 concerning

Carbon Impacts of Biomass consumed in the EU

Time-limit for receipt of tenders: 08/10/2012

Last Update 11/09/2012

Question 1. Does the scope of the technical specification cover all potential biomass sources, both internal and external, for the European Union, or is it restricted to woody biomass from forests and energy crops?

Answer 1. **The scope is limited to the main types of biomass that is used for electricity and heating, including various sources of woody biomass from forests and energy crops from the EU and third countries.**

Question 2. As Task 5 on "Ad-hoc technical support" cannot be specified exactly at this time, should tenders indicate day rates for future staff support separate from the main tender bid price, or include a fixed number of days support within the main tender bid price?

Answer 2. **The tenderer is requested to include fixed number of days support within the main tender bid price.**
