Therefore, the Directorate-General for Energy, in particular the service responsible for health protection would like to acquire and install inside the Commission office building, Euroforum, in the Cloche d'Or area in Gasperich, Luxembourg, a deposit boxes arrangement. This installation should be similar to those for distribution and deposit of letters in post offices or in banks. The European Commission Directorate-General for Energy would like to purchase arrangements consisting in total of about 240 individual letterbox-type small lockers. Each locker shall be individually locked and be opened by an individual key or by an electronic system. In the case of a grouping, this form must only be provided by the person heading the project.

If the corresponding bank account of the economic operators is already registered in the Commission's files they are not obliged to provide a new form on the condition that they confirm that no change in the information already provided has occurred.
