I. SPECIFICATIONS

I.1. Introduction

Directorate I Safeguards Inspectors takes samples of nuclear material from nuclear facilities in Europe. It is necessary to transport these samples to an approved laboratory for analysis. The containers must be in accordance with international standards for the safe transport of nuclear materials.

I.2. Purpose of the contract

The tendering company will be required to supply 20 x Type A transport containers for multimodal transport of solid and liquid radioactive / fissile materials in both special and other forms. The containers must conform to the following technical specifications

1. The containers must comply with the Requirements for Type A Packages according to the IAEA Safety Standards Series No TS-R-1, Regulations for the Safe Transport of Radioactive Material, 1996 Edition (as amended 2003).
2. The quantity and activity of the radioactive material contained (various radio-nuclides) may be up to the Type A limits as quoted in paragraph 413 of TS-R-1, and quantities of less than 15g for fissile material. Mixtures of radio-nuclides will be limited to the equivalent A_2 value determined in accordance with paragraph 414 of IAEA Safety Standard Series TS-R-1/. Any design with outer and inner containers must provide appropriate shielding for these quantities.
3. The design and manufacturing techniques must be in accordance with international standards and be acceptable to the competent authority in the State of Origin.
4. The containers must be re-useable and accompanied by a Certificate of Regulatory Approval of Package Design by the Competent Authority of the State of Origin.
5. The containers will be transported by hand and therefore should have a gross weight not exceeding 20kg per container. The weight of the proposed package must be quoted.
6. The design must be capable of being securely closed with a fastening device, (such as a toggle-catch or rim clamp) which is independent of any other part of the packaging and which permits the attachment of a wire which is used to seal the container for additional security. (Minimum/Maximum hole size for wire = 3mm/5mm).
7. The re-useable design should, ideally, incorporate transparent holders for up to four hazard labels, two on each side (current legislation requires that minimum dimensions of each label should be 100mm x 100mm), UN number and proper shipping name as well as shipper / consignee labels.
8. Other markings, such as Competent Authority ID, Type A, VRI/Number/Type Code must be affixed or indented in a permanent way.

The tender must contain engineering drawings and any other relevant documentation with sufficient information to conclude that the above criteria have been met.

Any offer which does not demonstrate compliance with the specific "must" requirements defined in the above text will be rejected.

I.3. Duration of the tasks

The delivery of the units shall be not later than one year after entry into force of the contract.

I.4. Place of performance and delivery

The tasks will be performed on the Contractor's premises.

However, meetings between the contractor and the Commission may be held on Commission premises in Luxembourg.

The tenderer will deliver the goods to Luxembourg.

Address: European Commission
 c/o. Ms Adams-Webel/Mr Boella
 1 rue Henry M Schnadt
 L-2530 Luxembourg

I.5. Estimate of the amount of work involved

A total of twenty containers will be needed.

II. TERMS OF CONTRACT

In drawing up his offer, the tenderer should bear in mind the provisions of the draft contract attached to this invitation to tender (Annex 5). Any limitation, amendment or denial of the terms of contract will lead to automatic exclusion from the procurement procedure.

The Commission may, before the contract is signed, either abandon the procurement procedure or cancel the award procedure without the tenderers being entitled to claim any compensation.

II.1. Terms of payment

Payments shall be made in accordance with the provisions specified in Annex 5, the draft service contract.

II.2. Subcontracting

If the tenderer intends to subcontract part of the service, he shall indicate in his offer which part will be subcontracted and to what extent (% of the total contract value).

Tenderers must ensure that Article II.17 of the contract (Annex 5) can be applied to subcontractors. Once the contract has been signed, Article II.13 of the above-mentioned contract shall govern the subcontracting.

II.3. Legal form to be taken by the grouping of service providers to whom the contract is awarded (if applicable)

Groupings, irrespective of their legal form, may submit bids. Tenderers may, after forming a grouping, submit a joint bid on condition that it complies with the rules of competition. Such groupings (or consortium) must specify the company or person heading the project and must also submit a copy of the document authorising this company or person to submit a bid. If awarded, the contract will be signed by the company of the person heading the project, who will be, vis à vis the Commission, the only contracting party responsible for the performance of this contract. Tenders from a consortium of firms or groups of service providers, contractors or suppliers must specify the role, qualifications and experience of each member of the consortium or group. Each member must provide all the necessary documents for assessing the bid as a whole with regard to the exclusion criteria, selection criteria (in their entirety) and award criteria.

III. FORM AND CONTENT OF THE TENDER

III.1. General

Tenders must be written in **one of the official languages** of the European Union.

Tenders must be clear and concise, with continuous page numbering, and assembled in a coherent fashion (e.g. bound or stapled, etc...). Since tenderers will be judged on the content of their written bids, they must make it clear that they are able to meet the requirements of the specifications.

III.2. Structure of the tender

All tenders must include three sections i.e. an administrative, a technical and a financial proposal.

III.2.1. Section One: administrative proposal

This section must provide the following information, set out in the standard identification forms attached to these tender specifications (Annexes 1, 2 and 3):

- Tenderers' identification (Annex 1)
 - All tenderers must provide proof of **registration**, as prescribed in their country of establishment, on one of the **professional or trade registers** or provide a declaration or certificate.
 - If the tenderer is a natural person, he/she must provide a copy of the identity card/passport or driving licence and proof that he/she is covered by a social security scheme as a self-employed person.

Each service provider (including subcontractor(s) or any member of a consortium or grouping) must complete and sign the identification forms in Annex 1 and also provide above-mentioned documents. However, the subcontractor(s) shall not be required to fill in or provide those documents when the services represent less than 20% of the contract.

- Financial identification (Annex 2)

The **bank identification form** must be filled in and signed by an authorised representative of the tenderer and his/her banker. A standard form is attached in Annex 2 and a specific form for each Member State is available at the following Internet address:

http://ec.europa.eu/budget/execution/ftiers_en.htm.

In the case of a grouping, this form must only be provided by the person heading the project.

- Legal entities (Annex 3)

The legal entity form in Annex 3 must be filled in and should be accompanied by a number of supporting documents, available on the Web site:

http://ec.europa.eu/budget/execution/legal_entities_en.htm

In the case of a grouping, this form must only be provided by the person heading the project.

The Commission reserves the right, however, to request additional evidence in relation to the bid submitted for evaluation or verification purposes within a time-limit stipulated in its request.

III.2.2. Section Two: Technical proposal

This section is of great importance in the assessment of the bids, the award of the contract and the future execution of any resulting contract.

The technical proposal must provide all the information needed for the purpose of awarding the contract.

III.2.3. Section Three: Financial proposal

All tenders must contain a financial proposal. The tenderer's attention is drawn to the following points:

- Prices must be quoted in **euros**, including the countries which are not in the euro-area. As far as the tenderers of those countries are concerned, they cannot change the amount of the bid because of the evolution of the exchange rate. The tenderers choose the exchange rate and assume all risks or opportunities relating to the rate fluctuation.
- Prices must be fixed amounts and include all expenses, such as expenses for travel or shipping and handling and daily allowances.
- **Prices should be quoted free of all duties, taxes and other charges, i.e. also free of VAT**, as the Communities are exempt from such charges in the EU under Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Communities of 8 April 1965 (OJ L 152 of 13 July 1967). Exemption is granted to the Commission by the governments of the Member States, either through refunds upon presentation of documentary evidence or by direct exemption. For those countries where national legislation provides an exemption by means of a reimbursement, the amount of VAT is to be shown separately. In case of doubt about the applicable VAT system, it is the tenderer's responsibility to contact his or her national authorities to clarify the way in which the European Community is exempt from VAT;
- **Prices shall be fixed** and not subject to revision during the performance of the contract;

Bids involving more than one service provider (consortium) must specify the amounts indicated above for each provider.

IV. ASSESSMENT AND AWARD OF THE CONTRACT

The assessment will be based on each tenderer's bid.

All the information will be assessed in the light of the criteria set out in these specifications. The procedure for the award of the contract, which will concern only admissible bids, will be carried out in three successive stages.

The aim of each of these stages is:

- 1) to check on the basis of the exclusion criteria, whether tenderers can take part in the tendering procedure;
- 2) to check on the basis of the selection criteria, the technical and professional capacity and economic and financial capacity of each tenderer;
- 3) to assess on the basis of the award criteria each bid which has passed the exclusion and selection stages.

Contracts will not be awarded to tenderers who, during the procurement procedure:

- a) **are subject to a conflict of interest;**

Tenderers must declare:

- that they do not have any conflict of interest in connection with the contract; a conflict of interest could arise in particular as a result of economic interests, political or national affinities, family or emotional ties, or any other relevant connection or shared interest;

IV.1.1 and VI.1.2). For that purpose, they must complete and sign the form attached in Annex 4. The Commission accepts, as satisfactory evidence that the tenderer is not in the situation described in point IV.1.1 (d) above, a recent certificate issued by the competent authority of the State concerned.

Where no such document or certificate is issued in the country concerned, it may be replaced by a sworn or, failing that, a solemn statement made by the interested party before a judicial or administrative authority, a notary or a qualified professional body in his country of origin or provenance.

3. Depending on the national legislation of the country in which the candidate or tenderer is established, the documents referred to in paragraph 1 and 2 above shall relate to legal and/or natural persons including, if applicable with regard to points b) and e), company directors or any person with powers of representation, decision-making or control in relation to the tenderer.
4. When the subcontracted part is above 20% of the contract value, the subcontractor(s) must also provide the above-mentioned declaration on honour. In case of doubt on this declaration on the honour, the contracting authority may also request the evidence referred to in paragraphs 2 and 3 above.
5. The Commission reserves the right to request any other document relating to the proposed tender for evaluation and verification purpose, within a delay determined in its request.

Remark:

The tenderers will be waived of the obligation to submit the documentary evidence above mentioned if such evidence has already been submitted for the purposes of another procurement procedure launched by Directorate General for Energy and Transport and provided that the documents are not more than one year old starting from their issuing date and that they are still valid. In such a case, the tenderer shall declare on his honour that the documentary evidence has already been provided in a previous procurement procedure,

specifying the reference of the call for tender for which the documents have been provided, and confirm that no changes in his situation have occurred.

IV.1.4. Administrative and financial penalties

Without prejudice to the application of penalties laid down in the contract, candidates or tenderers and contractors who have been found guilty of misrepresentation in supplying the information required by the contracting authority as a condition of participation in the procurement procedure or have failed to supply this information or have been declared to be in serious breach of their obligations under contracts covered by the Community budget may be subject to administrative or financial penalties, in accordance with Article 96 of the Financial Regulation and Articles 134b and 133a of the Implementing Rules.³

ARTICLE II.1 - PROCEDURES FOR PERFORMING THE CONTRACT

II.1.1 Phases of execution of the Contract

Delivery

a) Time allowed for delivery

The time allowed for delivery shall be mentioned in Annex I.

b) Date and time of delivery

The Commission shall be notified in writing of the exact date of delivery within the period indicated in the Special Conditions. All deliveries shall be made at the agreed place of delivery during the hours indicated in the Special Conditions. The supplier shall bear all the risks concerning the goods until provisional acceptance at the place of delivery.

c) Consignment note

All consignments shall be accompanied by a consignment note in duplicate, duly signed and dated, giving the Contract number and particulars of the goods delivered. One copy of the consignment note shall be countersigned by the Commission and returned to the Contractor.

Acceptance of the goods after verification

Signing of the consignment note by the Commission, as provided for in subparagraph c) above, is simply an acknowledgement of the fact that the goods have been delivered and in no way implies acceptance.

Acceptance of the goods shall be confirmed by the signing of a certificate to this effect by the Commission contained in Annex II to this contract.

Acceptance shall take place no later than one month after the date of delivery, unless provision is made for a different period in the Special Conditions or in Annex I.

Acceptance shall be declared only where the conditions laid down in the Contract are satisfied and the goods conform to the Technical Specifications, which are an integral part of this Contract (Annex I).

Where a performance guarantee is required under Article I.4, the above- mentioned acceptance shall be considered provisional until release of the guarantee.

Non-acceptance of the goods after verification

Where, for reasons attributable to the Contractor, the Commission is unable to declare acceptance of the goods within thirty days of the date of delivery, the Contractor shall be notified in writing within a period of three Commission working days from the deadline for acceptance. The penalties provided for in Article II.4.1 may apply to the proportion of the total price corresponding to the goods which are unacceptable.

Training

If required by the Special Conditions, the Contractor shall provide a training at the premises of the Commission service where the goods will be installed according to the modalities determined in Annex I.

II.1.2 General provisions concerning goods

a) Packaging

The goods shall be packaged in strong boxes or crates or in any other way that ensures that the contents remain intact and prevents damage or deterioration. Packaging, pallets, etc., including contents, shall not weigh more than 500 kg.

Pallets shall be considered as one-way packaging and shall not be returned. Each box shall be clearly labelled with the following information:

- Commission of the European Communities and address for delivery;
- name of Contractor;
- description of contents;
- date of delivery;
- number and date of Contract;
- EC code number of article.

b) Guarantee

The goods shall be guaranteed against all defects in manufacture or materials for one year from the date of acceptance, unless provision is made for a different period in the Special Conditions or in Annex I. The Contractor shall guarantee that any permits and licences required for manufacturing and selling the goods have been obtained.

The Contractor shall replace at his own expense, within a reasonable time-limit to be determined by agreement between the parties, any items which become damaged or defective in the course of normal use during the guarantee period.

II.1.3 Performance of the Contract

- a) The Contractor shall perform the Contract to the highest professional standards. The Contractor shall have sole responsibility for complying with any legal obligations incumbent on him, notably those resulting from employment, tax and social legislation.
- b) The Contractor shall have sole responsibility for taking the necessary steps to obtain any permit or licence required for performance of the Contract under the laws and regulations in force at the place where the goods are to be delivered.
- c) The Contractor must ensure that any staff performing the Contract have the professional qualifications and experience required for execution of the Contract.
- d) In the event of disruption resulting from the action of a member of the Contractor's staff working on Commission premises or in the event of the expertise of a member of the Contractor's staff failing to correspond to the profile required by the Contract, the Contractor shall replace him without delay. The Commission shall have the right to request the replacement of any such member of staff, stating its reasons for so doing. Replacement staff

must have the necessary qualifications and be capable of performing the Contract under the same contractual conditions. The Contractor shall be responsible for any delay in the execution of the Contract resulting from the replacement of staff in accordance with this Article.

- e) Should any unforeseen event, action or omission directly or indirectly hamper execution of the Contract, either partially or totally, the Contractor shall immediately and at his own initiative record it and report it to the Commission. The report shall include a description of the problem and an indication of the date on which it started. In such event the Contractor shall give priority to solving the problem rather than determining liability.
- f) Should the Contractor fail to perform his obligations under the Contract, the Commission may - without prejudice to its right to terminate the Contract - reduce or recover payments in proportion to the scale of the failure. In addition, the Commission may impose sanctions, as provided for in Article II.4.

ARTICLE II.2 - LIABILITY

- II.2.1.** The Commission shall not be liable for damage sustained by the Contractor in performance of the Contract except in the event of misconduct or negligence on the part of the Commission.
- II.2.2.** The Contractor shall be liable for any loss or damage caused by himself in performance of the Contract, including in the event of subcontracting under Article II.10. The Commission shall not be liable for any act or default on the part of the Contractor in performance of the Contract.

- II.2.5.** In the event of any action brought by a third party against the Contractor in connection with performance of the Contract, the Commission may assist the Contractor if a written request is made by the Contractor to this effect. Expenditure incurred by the Commission to this end shall be borne by the Contractor.
- II.2.6.** The Contractor shall take out the insurance required by the relevant applicable legislation against risks and damage relating to performance of the Contract. He shall take out supplementary insurance if he deems it necessary and appropriate in order to perform the Contract. A copy of all insurance contracts shall be sent to the Commission should it so request.

ARTICLE II.3 - CONFLICT OF INTERESTS

- II.3.1.** The Contractor shall take all necessary measures in order to prevent or end any situation that could compromise the impartial and objective performance of the Contract. Such conflict of interests could arise in particular as a result of economic interest, political or national

affinity, family or emotional ties, or any other relevant connection or shared interest. Any conflict of interests which could arise during performance of the Contract must be notified to the Commission in writing without delay.

The Commission reserves the right to verify that such measures are adequate and may require that additional measures be taken if necessary. The Contractor shall ensure that his staff, board and directors are not placed in a situation, which could give rise to conflict of interest. Without prejudice to Article II.1 the Contractor shall replace, immediately and without compensation from the Commission, any member of his staff exposed to such a situation.

II.3.2. The Contractor shall abstain from any contact likely to compromise his independence.

II.3.3. The Contractor declares:

- that he has not made, and will not make, any offer of any type whatsoever, from which an advantage can be derived under the Contract,
- that he has not granted and will not grant, has not sought and will not seek, has not attempted and will not attempt to obtain, and has not accepted and will not accept, any advantage, financial or in kind, to or from any party whatsoever, constituting an illegal practice or involving corruption, either directly or indirectly, as an incentive or reward relating to the performance of the Contract.

ARTICLE II.4 - PENALTIES AND LIQUIDATED DAMAGES

II.4.1. Under the Financial Regulation applicable to the general budget of the European Communities, all contractors who have been found to have seriously failed to meet their contractual obligations are subject to financial penalties representing 2% to 10% of the total value of the contract in question. This rate may be increased to 4% to 20% in the event of a repeat offence within five years of the first infringement.

II.4.2 Should the Contractor fail to perform his obligations under the Contract within the time specified in Article I.2, then, without prejudice to the Contractor's actual or potential liability incurred in relation to the Contract or to the Commission's right to terminate the Contract, the Commission may decide to impose liquidated damages of 0.2% of the amount of the Contract per calendar day of delay. The Contractor may submit arguments against this decision within thirty days of notification by registered letter with acknowledgement of receipt or equivalent. In the absence of reaction on his part or of written withdrawal by the Commission within thirty days of the receipt of such arguments, the decision imposing sanctions shall become enforceable.

ARTICLE II.5 – INVOICING AND PAYMENTS

a) Pre-financing:

The payment of the pre-financing foreseen in Article I.4.1 will be made within 30 days from registration of the invoice, drawn up in triplicate and bearing the Contract number.

Where required by Article I.4.1, the Contractor shall provide a financial guarantee in the form of a bank guarantee or equivalent supplied by an authorised bank or financial institution (guarantor) equal to the amount indicated in the same Article to cover pre-financing under the Contract.

The guarantor shall pay to the Commission at its request an amount corresponding to payments made by it to the Contractor which have not yet been covered by equivalent delivery of goods or execution of related services on his part.

The guarantor shall stand as first-call guarantor and shall not require the Commission to have recourse against the principal debtor (the Contractor).

The guarantee shall specify that it enters into force on the date on which the Contractor receives the pre-financing. The Commission shall release the guarantor from its obligations as soon as the Contractor has demonstrated that any pre-financing has been covered by equivalent delivery of goods or execution of related services. The guarantee shall be retained until the pre-financing has been deducted from payment of the balance. It shall be discharged the following month. The cost of providing such guarantee shall be borne by the Contractor.

b) Payment of the balance:

Within sixty days of receipt by the Contractor of the certificate of acceptance of the goods by the Commission, he shall submit the relevant invoice, drawn up in triplicate and bearing the Contract number, to the Commission for approval.

Where required in either the Special Conditions or Annex I, it shall be accompanied by a final technical report in accordance with the instructions laid down in Annex I and provided for in the Special Conditions.

On receipt of the documents the Commission shall have the period of time indicated in the Special Conditions in which:

- to approve them, with or without comments, reservations or requests for additional information; or
- to request new documents.

If the Commission does not react within this period, the documents shall be deemed to have been approved. Approval of the documents accompanying the request for payment does not imply recognition either of their regularity, or of the authenticity, completeness or correctness of the declarations or information enclosed.

Where the Commission requests new documents, these shall be submitted within the period of time indicated in the Special Conditions. The new documents shall likewise be subject to the above provisions.

ARTICLE II.6 – GENERAL PROVISIONS CONCERNING PAYMENTS

II.6.1 Payments shall be deemed to have been made on the date on which the Commission's account is debited.

II.6.2 The periods referred to in Article I.4 may be suspended by the Commission at any time if it informs the Contractor that his payment request is not admissible, either because the amount is not due or because the necessary documents have not been produced.

The Commission shall notify the Contractor accordingly by registered letter with acknowledgement of receipt or equivalent. Suspension shall take effect from the date of dispatch of the letter.

II.6.3 In the event of late payment the Contractor shall be entitled to may claim interest, provided the calculated interest exceeds EUR 200. However, in the event of payment due before 1st January 2008, the Contractor may claim interest only within two months of receiving the payment. In case interest does not exceed EUR 200, the Contractor may claim interest within two months of receiving the payment. Interest shall be calculated at the rate applied by the European Central Bank to its most recent main refinancing operations (“*the reference rate*”) plus seven percentage points (“*the margin*”). The reference rate in force on the first day of the month in which the payment is due shall apply. Such interest rate is published in the C series of the Official Journal of the European Union. Interest shall be payable for the period elapsing from the calendar day following expiry of the time-limit for payment up to the day of payment. Suspension of payment by the Commission may not be deemed to constitute late payment.

II.6.4. The Financial Regulation applicable to the general budget of the European Communities imposes a final date for implementation of legal commitments towards third parties extending over more than one financial year by which all the phases of execution have to be completed and the payments made.

This final date shall be determined by adding to the date on which the goods and related services have to be delivered :

- the maximum periods laid down in article I.4,
- where applicable, the maximum period laid down for release of the performance guarantee.

In the event of amendment of the contract duration or of the periods indicated above, the final date for implementation shall automatically be modified accordingly.

ARTICLE II.7. –RECOVERY

II.7.1. If total payments made exceed the amount actually due under the Contract or if recovery is justified in accordance with the terms of the contract, the Contractor shall reimburse the appropriate amount in euro on receipt of the debit note, in the manner and within the time limits set by the Commission.

II.7.2. In the event of failure to pay by the deadline specified in the request for reimbursement, the sum due shall bear interest at the rate indicated in Article II.6.3. Such interest rate is published in the C series of the Official Journal of the European Union. Interest shall be payable from the calendar day following the due date up to the calendar day on which the debt is repaid in full.

II.7.3. The Commission may, after informing the Contractor, recover amounts established as receivable by offsetting, in cases where the Contractor also has a claim on the Communities that is certain, of a fixed amount and due. The Commission may also claim against the guarantee. The agreement of the Contractor is not required.

II.7.4. The Contractor is aware that the Commission may formally establish an amount as being receivable from persons other than States by means of a decision which shall be enforceable within the meaning of Article 256 of the EC Treaty.

ARTICLE II.8. –TAXATION

- II.8.1** The Contractor shall have sole responsibility for compliance with the tax laws which apply to him. Failure to comply shall make the relevant invoice invalid.
- II.8.2** The Contractor recognises that the Commission is, as a rule, exempt from all taxes and dues, including value added tax (VAT), pursuant to the provisions of Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Communities.
- II.8.3** The Contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the goods and services required for performance of the Contract are exempt from taxes and dues, including VAT.
- II.8.4** Invoices presented by the Contractor shall specify separately his VAT taxation place, the amounts not including VAT and the amounts including VAT.

ARTICLE II.9.– FORCE MAJEURE AFFECTING THE CONTRACT

- II.9.1** Force majeure shall mean any unforeseeable and exceptional situation or event beyond the control of the contracting parties which prevents either of them from performing any of their obligations under the Contract, was not due to error or negligence on their part or on the part of a subcontractor and could not have been avoided by the exercise of due diligence. Defects in equipment or material or delays in making it available, labour disputes, strikes or financial problems cannot be invoked as force majeure unless they stem directly from a relevant case of force majeure.
- II.9.2** If either of the contracting parties is faced with force majeure, it shall notify the other party without delay by registered letter with acknowledgement of receipt or equivalent, stating the nature, likely duration and foreseeable effects.
- II.9.3** Neither contracting party shall be held in breach of its contractual obligations if it has been prevented from performing them by force majeure. Where the Contractor is unable to perform his contractual obligations owing to force majeure, he shall have the right to remuneration for the goods actually delivered and related services provided.
- II.9.4** The contracting parties shall take the necessary measures to reduce damage to a minimum.

ARTICLE II.10 – SUBCONTRACTING

- II.10.1.** The Contractor shall not subcontract without prior written authorisation from the Commission nor cause the Contract to be performed in fact by third parties.
- II.10.2.** Even where the Commission authorises the Contractor to subcontract to third parties, he shall nonetheless remain bound by his obligations to the Commission under the Contract.
- II.10.3.** The Contractor shall make sure that the subcontract does not affect rights and guarantees to which the Commission is entitled by virtue of the Contract, notably Article II.13.

ARTICLE II.11 – ASSIGNMENT

II.11.1. The Contractor shall not assign the rights and obligations arising from the Contract, in whole or in part, without prior written authorisation from the Commission.

II.11.2. In the absence of the authorisation referred to in 1 above, or in the event of failure to observe the terms thereof, assignment by the Contractor shall not be enforceable against and shall have no effect on the Commission.

ARTICLE II.12 - TERMINATION

II.12.1. The Commission may terminate the Contract in the following circumstances:

- d) where the Contractor has been found guilty by the competent bodies of serious professional misconduct;
- e) where the Contractor is declared bankrupt, is wound up, has ceased trading, has been wound up by court order or is in composition with his creditors entailing suspension of business, is in receivership or is in any other comparable situation provided for by the laws or regulations of his country;
- f) where the Contractor has made false, incomplete or incorrect statements or has failed to provide information in an attempt to obtain the Contract or any benefit resulting therefrom, or where this was the effect of his action;
- g) where the Contractor has intentionally or by negligence, committed an irregularity in performance of the Contract or in relation to other contracts concluded with an institution, organ or agency of the European Communities and, more generally, in the event of fraud, corruption or any other illegal activity detrimental to the Communities' financial interests on the part of the Contractor.

II.12.2. In case of force majeure, notified in accordance with Article II.9, either contracting party may terminate the Contract.

II.12.3. Registered letter with acknowledgement of receipt or equivalent initiates the termination procedure. Where prior notice is not required (points b), d), e), f) and g)), termination shall take effect from the day after the day on which the letter terminating the Contract is received.

Where prior notice is required (points a) and c)), termination shall take effect after a period of three months, which shall start to run on the date on which the letter terminating the Contract is received. The Contractor may submit arguments against the termination within thirty days. In the absence of reaction on his part or of written withdrawal of the termination notice by the Commission within thirty days of the receipt of such arguments, the termination procedure is maintained.

II.12.4. Consequences of termination:

In the event of the Commission terminating the Contract in accordance with the provisions of this Article, the Contractor shall waive any claim for consequential damages, including

any loss of anticipated profits for uncompleted work. On receipt of the letter terminating the Contract, the Contractor shall take all appropriate measures to minimise costs, prevent damage, and cancel or reduce his commitments. He shall draw up the documents required by the Special Conditions for the goods delivered and related services provided up to the date on which termination takes effect, within a period not exceeding sixty days from that date.

The Contractor shall be entitled to remuneration in accordance with Annex I and accepted by the Commission. The Contractor shall accept as the aggregate liability of the Commission payment of the contract price corresponding to the goods delivered and to the related services provided in accordance with the Contract as at the effective date of termination. However, in the event of termination on the grounds set out in points (b), (c), (d), (f) or (g) of Article II.12.1, the Commission may recover any sums paid to the Contractor under the Contract.

ARTICLE II.13 – CHECKS AND AUDITS

- II.13.2.** The Contractor shall keep at the Commission's disposal the original or, in exceptional cases, duly authenticated copies, of all documents relating to the Contract for a period of five years from payment of the last delivery.
- II.13.3.** The Commission may, at any time within the period specified in the paragraph above, arrange for an audit to be carried out either by an outside body of its choice, or by the Commission departments themselves.
