

FREQUENTLY ASKED QUESTIONS

INVITATION TO TENDER: No. TREN/G3/221-1-2009

Galileo Operating Company Service Centre and Safety of Life Service Centre definition study

Time-limit for receipt of tenders: 21 September 2009

Question 1:

We have a question related to the point: "I.12 Classification of Documents".

In this point it is said that "The study to be delivered in completion of the contract will be classified at RESTREINT UE level". This means that every single Deliverable in the Tender will be classified as RESTREINT UE level? If the response is affirmative, then there will be no possible e-mail interchange of information between consortium partners or EC and consortium unless the exchange of information is done using a encrypting program. In this case the encrypting program will be defined and supplied by the EC?

Answer to question 1:

The study to be delivered in completion of the contract may be classified up to RESTREINT UE level.

But we do not expect that RESTREINT UE information are needed for the proposals submission, except if the bidder deems it necessary.
