## **I. SPECIFICATIONS**

### **I.1. Introduction**

The European Union has committed itself to an ambitious energy and climate change policy. In 2008 the EU agreed on achieving a 20% reduction of greenhouse gas emissions and an increase to 20% in the share of renewables in its energy mix by 2020. For the transport sector, a 10% target for the use of renewable energy, including biofuels, was also agreed. Importantly, the EU tied the use of biofuels to a set of sustainability criteria.

In 2007 the share of biofuels in the EU road transport market reached 2.6%. The total biofuels amount of 8.1 Mtoe included 6.1 Mtoe of biodiesel and 1.2 Mtoe of bioethanol. A substantial increase of biofuels is therefore needed to meet the 10% EU targets. While the increased consumption of biofuels will take place in the EU, the new renewable/biofuels targets will likely impact fuel specifications within as well as outside the EU.

At the global scale, increased biofuels supply will reduce future requirements for refinery capacity and throughputs, potentially leading to a period of consolidation of refining sector, with potential closures, affecting the entire supply chain of the oil industry in the EU and in third countries.

This study will therefore aim at assessing the impact of an increased consumption of biofuels on the oil refining process, refining economics and fuel specifications. The study should clarify likely scenarios for the supply of gasoline-replacers and diesel-replacers and the use of high or low blends. In particular, it should include refinery energy use, refinery greenhouse gas emissions and the impact on the oil price and the price of refined products and their differentials. At the same time, the study would analyse the experience made in the leading biofuels markets, such as the US, Brazil, Asia and other relevant area. In this respect, attention will be paid to the prospects of simultaneous biofuels expansion in the US and EU which might negatively impact gasoline market balance in the Atlantic Basin with potential global implications on product pricing, trade and refining economics.

Results of the study would provide input for the EU-OPEC energy dialogue, where the study was initiated at the last ministerial meeting in June 2008.

### **I.2. Purpose of the contract**

The study shall offer the best possible assessment of the impact of the use of biofuels on the refining economics, the complexity of the refining process, refined products trade, pricing and the quality of the fuels.

The company performing the study shall provide a sound technical expertise to assess the demand side perspectives (gasoline/diesel/jet fuel/fuel oil mix) and supply side challenges for the oil and refining industry.

#### ***I.2.1 Objectives***

In particular, the study should analyse the following key issues and identify scenarios for a 2020/2030 horizon regarding:

- Biofuels in the context of supply/demand balances both in the EU and globally;
- Future refinery operations in terms of required capacities for various processes, throughputs and utilizations;
- Impact of biofuels supply on refinery economics;
- Prospects for consolidation of refining sector in the EU (and globally)
- Consequences for the refining process, its energy use and greenhouse gas emission performance, crude treatment and crude slates;
- Impacts on product imports and exports, in particular within the Atlantic Basin;
- Characteristics of the biofuels mix;
- Mix of production between gasoline-replacers and diesel-replacers;
- Mix between use of high blends (B30, B100, E85) in specialised vehicles, and use in ordinary vehicle fleet;
- Mix of production between fuels that:
  - a) cannot be used in conventional vehicles (e.g. biogas),
  - b) can be used in conventional vehicles but are quite different from petroleum fuels (FAME and ethanol),
  - c) can be used in conventional vehicles and resemble petroleum fuels more closely (hydrotreated vegetable oils, biomass to liquid (BTL)).
- Expectations about changes in the specification in relation to the share of fuels in group (b);
- Use of biofuels in bunker fuels and aviation;
- Technical constraints to usage of biofuels (adaptation of the vehicles and engines).
- Adaptation of the distribution logistics (storage, transport, pipelines, liquids, such as water, etc.)
- Impact on specifications for final oil products (octane, cetane etc.)
- Options for management in the downstream sector in case of disruptions in biofuels supply

Besides analysing the effects on the refining economics in the EU, the impact in other areas and in particular in OPEC countries and their market players shall be carefully assessed.

Finally, the study is required to compare the experiences of the major biofuels markets, such as the US, Brazil and Asian countries, and their policy framework for biofuels (taxation, fiscal incentives, excise duties etc.). It should also provide information on the relative penetration of the car of the future (hybrids, electric and fuel cells car).

The study is to assist the Commission in drawing up operational conclusions which will provide input to the EU-OPEC Energy Dialogue. The results will be presented and discussed by the contractor in a workshop jointly organised by the EU and OPEC involving major stakeholders.

The study must take into account results from similar studies available from other international organisations, such as for example the International Energy Agency (IEA).

### ***1.2.2. Expertise of the contractor***

The execution of this study will require a thorough knowledge of the biofuels and refining market. The study needs extensive innovative work in a relatively new area. However, the

focus of the study lies on the impact of increased use of biofuels on the refining industry and does not constitute an evaluation of the EU targets for renewable energy.

The project team shall have expertise on the following issues:

- Refining economics
- Biofuels refining
- Financial economics
- Biofuel technology

### **1.2.3. Stakeholders**

This project will imply direct contacts with: administrations, industry associations, technology platforms, standardization and certification bodies, the refining industry, car producers, industry associations at EU level, Member States, OPEC countries and other relevant entities in the main international markets of interest (US, Brazil and Asia).

The contractor shall provide the Commission with the information regarding the stakeholders to be contacted for approval. The contractor shall organise meetings, with assistance of the Commission to gather the required information. The contractor shall ensure that the information is provided in such a way that it can be used as input to the study.

### **1.2.4. Budget**

The duration of the project shall not extend 9 months.

The contractor has to submit a detailed and substantiated financial proposal setting out the breakdown of costs involved in the implementation of the project.

### **1.2.5. Duties of the contractor**

The contractor is responsible and in overall charge for the implementation of the project as described in these terms of reference. The contractor has to ensure close co-ordination with the Commission and to take fully into account the views of stakeholders involved in the project. The contractor shall make best endeavours to obtain the necessary input from all stakeholders that are mentioned above.

All reports to the Commission and all communication with the Commission shall be in English.

## **I.3. Reports and documents to produce - Timetable to observe**

Execution of the tasks begins after the date on which the Contract enters into force.

A **kick-off meeting** will take place in Brussels, at the latest 30 days following the signature of the contract, in order to settle all the details of the study, report, etc... to be undertaken.

A steering group, lead by DG TREN Unit C1, will be constituted including representation of other DG TREN units (Unit C3 Coal and Oil, Unit D1 Regulatory policy and Promotion of renewable energy, Unit C4 Market Observatory, Unit A1 Economic Analysis) and of other Commission services as appropriate.

### ***The Inception report***

The Inception Report will present:

- list of contacts and methodology for stakeholder consultation together with a first comprehensive analytical report on the analysis of the biofuels impact on the oil supply chain;
- the detailed methodology for performing the international analysis (US, Asia, Brazil)

The Inception report will be submitted **six weeks** after the start of the study.

### ***The Interim report***

The **interim report** showing progress of the work shall be submitted to the Commission at the latest **16 weeks** after the date of signature of the contract.

The Commission shall have 20 days from receipt to approve or reject the report. Within 20 days of receiving the Commission's observations, the Contractor will submit additional information or another report.

The Interim report will enable EC to make comments and eventually propose amendments before the work programme chapters are finalised.

### ***The Final report***

The contractor will submit a draft final report to the Commission at the latest **8 months** after the signature of the contract.

The Final Report will include the following deliverables for the study:

- A Detailed Report on each work chapter, explaining the problematic, the analysis done, the results and the conclusions drawn;
- An Overall Report, explaining the results and the eventual problems to face in case of each chapter and giving the overall conclusions of the study (indicative size: 25 pages);
- An Executive Summary (indicative size: 5 pages);
- A Power Point presentation, summarising the problems, analysis and results of each chapter and the conclusions of the study.

Within 20 days after the submission of this draft final report the Commission will provide the contractor with its comments on the draft final report and the date of a **second meeting** in (Brussels) will be agreed in order to discuss the Commission's observations.

After this meeting, the Contractor shall have 20 days in which to submit additional information or a new final report.

### ***Report format and publication***

**5 copies** of the reports shall be supplied in paper form and one copy in electronic form, either in MSWord or in HTML format.

The Commission may publish the results of the study. For this purpose, the tenderer must ensure that the study is not subject to any restrictions deriving from intellectual property rights of third

parties. Should he intend to use data in the study, which cannot be published, this must be explicitly mentioned in the offer.

#### **I.4. Duration of the tasks**

The duration of the tasks shall not exceed **9 months**. This period is calculated in calendar days.

#### **I.5. Place of performance**

The tasks will be performed on the Contractor's premises. However, meetings between the contractor and the Commission may be held on Commission premises in Brussels.

#### **I.6. Estimate of the amount of work involved**

The amount of work involved to carry out this contract is assessed at **about 200 man-days**.

## **II. TERMS OF CONTRACT**

In drawing up his offer, the tenderer should bear in mind the provisions of the draft contract attached to this invitation to tender (Annex 5). Any limitation, amendment or denial of the terms of contract will lead to automatic exclusion from the procurement procedure.

The Commission may, before the contract is signed, either abandon the procurement procedure or cancel the award procedure without the tenderers being entitled to claim any compensation.

### **II.1. Terms of payment**

Payments shall be made in accordance with the provisions specified in Annex 5, the draft service contract

### **II.2. Financial guarantees**

#### **Guarantee on pre-financing**

For any pre-financing higher than 100,000 EUR, a financial guarantee equivalent to the amount of the pre-financing will be requested.

Depending on the financial situation of the tenderer, the Commission may ask for the financial guarantee for amounts lower than 100,000 EUR.

### **II.3. Subcontracting**

If the tenderer intends to subcontract part of the service, he shall indicate in his offer which part will be subcontracted and to what extent (% of the total contract value).

Tenderers must ensure that Article II.17 of the contract (Annex 5) can be applied to subcontractors. Once the contract has been signed, Article II.13 of the above-mentioned contract shall govern the subcontracting.

### **II.4. Legal form to be taken by the grouping of service providers to whom the contract is awarded (if applicable)**

Groupings, irrespective of their legal form, may submit bids. Tenderers may, after forming a grouping, submit a joint bid on condition that it complies with the rules of competition. Such groupings (or consortium) must specify the company or person heading the project and must also submit a copy of the document authorising this company or person to submit a bid. If awarded, the contract will be signed by the company or the person heading the project, who will be, vis à vis the Commission, the only contracting party responsible for the performance of this contract. Tenders from a consortium of firms or groups of service providers, contractors or suppliers must specify the role, qualifications and experience of each member of the consortium or group. Each member must provide all the necessary documents for assessing the bid as a whole with regard to the exclusion criteria, selection criteria (in their entirety) and award criteria.

### III. FORM AND CONTENT OF THE TENDER

#### III.1. General

Tenders must be written in **one of the official languages** of the European Union.

Tenders must be clear and concise, with continuous page numbering, and assembled in a coherent fashion (e.g. bound or stapled, etc...). Since tenderers will be judged on the content of their written bids, they must make it clear that they are able to meet the requirements of the specifications.

#### III.2. Structure of the tender

All tenders must include three sections i.e. an administrative, a technical and a financial proposal.

##### III.2.1. Section One: administrative proposal

This section must provide the following information, set out in the standard identification forms attached to these tender specifications (Annexes 1, 2 and 3):

- Tenderers' identification (Annex 1)
  - All tenderers must provide proof of **registration**, as prescribed in their country of establishment, on one of the **professional or trade registers** or provide a declaration or certificate.
  - If the tenderer is a natural person, he/she must provide a copy of the identity card/passport or driving licence and proof that he/she is covered by a social security scheme as a self-employed person.

*Each tenderer (including subcontractor(s) or any member of a consortium or grouping) must complete and sign the identification forms in Annex 1 and also provide above-mentioned documents. However, the subcontractor(s) shall not be required to fill in or provide those documents when the services represent less than 20% of the contract.*

- Financial identification (Annex 2)

The **bank identification form** must be filled in and signed by an authorised representative of the tenderer and his/her banker. A standard form is attached in Annex 2 and a specific form for each Member State is available at the following Internet address:

[http://ec.europa.eu/budget/execution/ftiers\\_en.htm](http://ec.europa.eu/budget/execution/ftiers_en.htm)

In the case of a grouping, this form must only be provided by the person heading the project.

- Legal entities (Annex 3)

The legal entity form in Annex 3 must be filled in and should be accompanied by a number of supporting documents, available on the Web site:

[http://ec.europa.eu/budget/execution/legal\\_entities\\_en.htm](http://ec.europa.eu/budget/execution/legal_entities_en.htm)

In the case of a grouping, this form must only be provided by the person heading the project.

The Commission reserves the right, however, to request additional evidence in relation to the bid submitted for evaluation or verification purposes within a time-limit stipulated in its request.

### ***III.2.2. Section Two: Technical proposal***

This section is of great importance in the assessment of the bids, the award of the contract and the future execution of any resulting contract.

Some guidelines are given below, but attention is also drawn to the award criteria, which define those parts of the technical proposal to which the tenderers should pay particular attention. The technical proposal should address all matters laid down in the specifications and should include models, examples and technical solutions to problems raised in the specifications. The level of detail of the tender will be extremely important for the evaluation of the tender. Tenderers must present in their bids a proposal on the methodology and the organisation of the work to carry out in the framework of the study.

The technical proposal must provide all the information needed for the purpose of awarding the contract.

### ***III.2.3. Section Three: Financial proposal***

All tenders must contain a financial proposal. The tenderer's attention is drawn to the following points:

- Prices must be quoted in **euros**, including the countries which are not in the euro-area. As far as the tenderers of those countries are concerned, they cannot change the amount of the bid because of the evolution of the exchange rate. The tenderers choose the exchange rate and assume all risks or opportunities relating to the rate fluctuation.
- Prices must be fixed amounts.

Estimated travel and daily subsistence allowance expenses must be indicated separately. This estimate should be based on Articles I.3 and II.7 of the draft contract (Annex 5). This estimate will comprise all foreseen travel and will constitute the maximum amount of travel and daily subsistence allowance expenses to be paid for all tasks.

- **Prices should be quoted free of all duties, taxes and other charges, i.e. also free of VAT**, as the Communities are exempt from such charges in the EU under Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Communities of 8 April 1965 (OJ L 152 of 13 July 1967). Exemption is granted to the Commission by the governments of the Member States, either through refunds upon presentation of documentary evidence or by direct exemption. For those countries where national legislation provides an exemption by means of a reimbursement, the amount of VAT is to be shown separately. In case of doubt

about the applicable VAT system, it is the tenderer's responsibility to contact his or her national authorities to clarify the way in which the European Community is exempt from VAT;

- **Prices shall be** fixed and not subject to revision during the performance of the contract;
- For each category of staff involved in the project, the tenderer must specify:
  - the total labour costs;
  - **the daily rates** and **total number of days** (man/days) each member of staff will contribute to the project;
  - other categories of costs, indicating the nature of the cost, the total amount, the unit price and the quantity.

**Bids involving more than one service provider (consortium) must specify the amounts indicated above for each provider.**

## **IV. ASSESSMENT AND AWARD OF THE CONTRACT**

The assessment will be based on each tenderer's bid.

All the information will be assessed in the light of the criteria set out in these specifications. The procedure for the award of the contract, which will concern only admissible bids, will be carried out in three successive stages.

The aim of each of these stages is:

- 1) to check on the basis of the exclusion criteria, whether tenderers can take part in the tendering procedure;
- 2) to check on the basis of the selection criteria, the technical and professional capacity and economic and financial capacity of each tenderer;
- 3) to assess on the basis of the award criteria each bid which has passed the exclusion and selection stages.

### **IV.1. Exclusion criteria (exclusion of tenderers)**

#### *IV.1.1. Exclusion criteria (Article 93 Financial Regulation<sup>1</sup>)*

1. To be eligible for participating in this contract award procedure, tenderers must not be in any of the following situations:

information required by the contracting authority as a condition of participation in a contract procurement procedure or by the authorising officer as a condition of participation in a grant award procedure, for failing to supply this information or for having been declared to be in serious breach of their obligations under contracts or grants covered by the Community budget.

2. The cases referred to in point IV.1.1. e) above shall be the following:

#### ***IV.1.2. Other cases of exclusion (Article 94 Financial Regulation)***

**Contracts will not be awarded** to tenderers who, during the procurement procedure:

- a) **are subject to a conflict of interest;**

Tenderers must declare:

- that they do not have any conflict of interest in connection with the contract; a conflict of interest could arise in particular as a result of economic interests, political or national affinities, family or emotional ties, or any other relevant connection or shared interest;
- that they will inform the contracting authority, without delay, of any situation constituting a conflict of interest or which could give rise to a conflict of interest;
- that they have not made and will not make any offer of any type whatsoever from which an advantage can be derived under the contract;
- that they have not granted and will not grant, have not sought and will not seek, have not attempted and will not attempt to obtain, and have not accepted and will not accept, any advantage, financial or in kind, to or from any party whatsoever, constituting an illegal practice or involving corruption, either directly or indirectly, as an incentive or reward relating to the award of the contract.

The Commission reserves the right to check the above information.

- b) **are guilty of misrepresentation** in supplying the information required by the contracting authority as a condition of participation in the procurement procedure or fail to supply this information.
- c) find themselves in one of the **situations of exclusion**, referred to in paragraph IV.1.1. above for this procurement procedure.

### ***IV.1.3. Evidence to be provided by the tenderers***

1. When submitting their bids, each tenderer (including subcontractor(s) or any member of a consortium or grouping) shall provide a declaration on their honour, duly signed and dated, stating that they are not in one of the situations mentioned above (cf. IV.1.1 and VI.1.2). For that purpose, they must complete and sign the form attached in Annex 4. Where the tenderer is a legal entity, they shall, whenever requested by the Commission, provide information on the ownership or on the management, control and power of representation of the legal entity.
2. The tenderer to whom the contract is to be awarded shall provide, within 15 calendar days after notification of the results of the procurement procedure and in any case before the signature of the contract, the following evidence, confirming the declaration referred to above:

The Commission shall accept, as satisfactory evidence that the tenderer is not in one of the situations described in point IV.1.1 (a), (b) or (e) above, a recent extract from the judicial record or, failing that, an equivalent document recently issued by a judicial or administrative authority in the country of origin or provenance showing that those requirements are satisfied.

The Commission accepts, as satisfactory evidence that the tenderer is not in the situation described in point IV.1.1 (d) above, a recent certificate issued by the competent authority of the State concerned.

Where no such document or certificate is issued in the country concerned, it may be replaced by a sworn or, failing that, a solemn statement made by the interested party before a judicial or administrative authority, a notary or a qualified professional body in his country of origin or provenance.

3. Depending on the national legislation of the country in which the candidate or tenderer is established, the documents referred to in paragraph 1 and 2 above shall relate to legal and/or natural persons including, if applicable with regard to points b) and e), company directors or any person with powers of representation, decision-making or control in relation to the tenderer.
4. When the subcontracted part is above 20% of the contract value, the subcontractor(s) must also provide the above-mentioned declaration on honour. In case of doubt on this declaration on the honour, the contracting authority may also request the evidence referred to in paragraphs 2 and 3 above.
5. The Commission reserves the right to request any other document relating to the proposed tender for evaluation and verification purpose, within a delay determined in its request.

### **Remark:**

The tenderers will be waived of the obligation to submit the documentary evidence above mentioned if such evidence has already been submitted for the purposes of another procurement procedure launched by Directorate General for Energy and Transport and provided that the documents are not more than one year old starting from their issuing date and that they are still valid. In such a case, the tenderer shall declare on his honour that the documentary evidence has already been provided in a previous procurement procedure,

specifying the reference of the call for tender for which the documents have been provided, and confirm that no changes in his situation have occurred.

#### ***IV.1.4. Administrative and financial penalties***

Without prejudice to the application of penalties laid down in the contract, candidates or tenderers and contractors who have been found guilty of misrepresentation in supplying the information required by the contracting authority as a condition of participation in the procurement procedure or have failed to supply this information or have been declared to be in serious breach of their obligations under contracts covered by the Community budget may be subject to administrative or financial penalties, in accordance with Article 96 of the Financial Regulation and Articles 134b and 133a of the Implementing Rules.<sup>3</sup>

Tenderers must provide proof of their financial and economic capacity by means of the following documents: the balance sheets or extracts from balance sheets for the last three financial years, and a statement of overall turnover and turnover relating to the relevant services for the last three financial years.

This rule applies to all service providers, regardless of the percentage of tasks they intend to execute, once they have chosen to submit a tender. However, if the tender includes subcontractors whose tasks represent less than 20% of the contract, those subcontractors are not obliged to provide evidence of their economic and financial capacity.

### ***IV.2.2. Technical and professional capacity – References required***

- 1) Educational qualifications of project elaborators: University degree(s) in related disciplines*
- 2) Working experience 15 years for senior and 5 for junior project elaborators*

- 4) List of the main services and tasks delivered during the last five years as well as related amounts, dates and beneficiaries with mention of the sector they belong to (private/public);*
- 5) Part of the contract which the service provider intends to subcontract;*
- 6) Working experience of the applicant and the project elaborators in the field of this project, in particular the field of refining and biofuels and its impact on the oil supply chain.*

The CV's shall be presented, preferably, in accordance to the Commission Recommendation on a common European format for curricula vitae, published in OJ L79 of 22 March 2002, p. 66.

### **IV.3. EVALUATION OF TENDERS – AWARD CRITERIA**

The contract will be awarded according to the criteria given below, on the basis of the economically most advantageous tender.

Only bids that have reached a total score of a minimum of 70% and a minimum score of 60 % for each criterion will be taken into consideration for awarding the contract.

a) Technical evaluation criteria in their order of importance as weighted by percentage

<b>N°</b>	<b>AWARD CRITERIA</b>	<b>WEIGHTING</b>

b) Total price

The contract will be awarded to the tender which offers the best ratio quality/price.

#### **IV.4. INFORMATION FOR TENDERERS**

The Commission will inform tenderers of decisions reached concerning the award of the contract, including the grounds for any decision not to award a contract or to recommence the procedure.

Upon written request, the Commission will inform the rejected tenderers of the reasons for their rejection and the tenderers having submitted an admissible tender of the characteristics and relative advantages of the selected tender and the name of the successful tenderer.

However, certain information may be withheld where its release would impede law enforcement or otherwise be contrary to the public interest, or would prejudice the legitimate commercial interests of economic operators, public or private, or might prejudice fair competition between them.

The report shall include a description of the problem and an indication of the date on which it started and of the remedial action taken

**II.1.9.** Should the Contractor fail to perform his obligations under the Contract in accordance with the provisions laid down therein, the Commission may - without prejudice to its right to terminate the Contract - reduce or recover payments in proportion to the scale of the failure. In addition, the Commission may impose penalties or liquidated damages provided for in Article II.16.

Any conflict of interests which could arise during performance of the Contract must be notified to the Commission in writing without delay. In the event of such conflict, the Contractor shall immediately take all necessary steps to resolve it.

The Commission reserves the right to verify that such measures are adequate and may require additional measures to be taken, if necessary, within a time limit which it shall set. The Contractor shall ensure that his staff, board and directors are not placed in a situation which could give rise to conflict of interests. **II.4.1.** Pre-financing :

Where required by Article I.4.1, the Contractor shall provide a financial guarantee in the form of a bank guarantee or equivalent supplied by a bank or an authorised financial institution (guarantor) equal to the amount indicated in the same Article to cover pre-financing under the Contract. Such guarantee may be replaced by a joint and several guarantee by a third party.

The guarantor shall pay to the Commission at its request an amount corresponding to payments made by it to the Contractor which have not yet been covered by equivalent work on his part.

The guarantor shall stand as first-call guarantor and shall not require the Commission to have recourse against the principal debtor (the Contractor).

The guarantee shall specify that it enters into force at the latest on the date on which the Contractor receives the pre-financing. The Commission shall release the guarantor from its obligations as soon as the Contractor has demonstrated that any pre-financing has been covered by equivalent work. The guarantee shall be retained until the pre-financing has been deducted from interim payments or payment of the balance to the Contractor. It shall be released the following month. The cost of providing such guarantee shall be borne by the Contractor.

**II.4.2.** Interim payment:

At the end of each of the periods indicated in Annex I the Contractor shall submit to the Commission a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- Ø an interim technical report in accordance with the instructions laid down in Annex I;
- Ø the relevant invoices indicating the reference number of the Contract to which they refer;
- Ø statements of reimbursable expenses in accordance with Article II.7.

If the report is a condition for payment, on receipt the Commission shall have the period of time indicated in the Special Conditions in which:

- Ø to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- Ø to reject it and request a new report.

If the Commission does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations or information enclosed.

Where the Commission requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

#### **II.4.3. Payment of the balance:**

Within sixty days of completion of the tasks referred to in Annex I the Contractor shall submit to the Commission a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- Ø a final technical report in accordance with the instructions laid down in Annex I;
- Ø the relevant invoices indicating the reference number of the Contract to which they refer;
- Ø statements of reimbursable expenses in accordance with Article II.7.

If the report is a condition for payment, on receipt the Commission shall have the period of time indicated in the Special Conditions in which:

- Ø to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- Ø to reject it and request a new report.

If the Commission does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations and information enclosed.

Where the Commission requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

### **ARTICLE II.5 – GENERAL PROVISIONS CONCERNING PAYMENTS**

**II.5.1.** Payments shall be deemed to have been made on the date on which the Commission's account is debited.

**II.5.2.** The payment periods referred to in Article I.4 may be suspended by the Commission at any time if it informs the Contractor that his payment request is not admissible, either because the amount is not due or because the necessary supporting documents have not been properly produced. In case of doubt on the eligibility of the expenditure indicated in the payment request, the Commission may suspend the time limit for payment for the purpose of further verification, including an on-the-spot check, in order to ascertain, prior to payment, that the expenditure is eligible.

The Commission shall notify the Contractor accordingly by registered letter with acknowledgment of receipt or equivalent. Suspension shall take effect from the date of

dispatch of the letter. The remainder of the period referred to in Article I.4 shall begin to run again once the suspension has been lifted.

**II.5.3.** In the event of late payment the Contractor shall be entitled to interest, provided the calculated interest exceeds EUR 200. In case interest does not exceed EUR 200, the Contractor may claim interest within two months of receiving the payment. Interest shall be calculated at the rate applied by the European Central Bank to its most recent main refinancing operations (“*the reference rate*”) plus seven percentage points (“*the margin*”). The reference rate in force on the first day of the month in which the payment is due shall apply. Such interest rate is published in the C series of the Official Journal of the European Union. Interest shall be payable for the period elapsing from the calendar day following expiry of the time limit for payment up to the day of payment. Suspension of payment by the Commission may not be deemed to constitute late payment.

## **ARTICLE II.6 – RECOVERY**

**II.6.1.** If total payments made exceed the amount actually due under the Contract or if recovery is justified in accordance with the terms of the Contract, the Contractor shall reimburse the appropriate amount in euro on receipt of the debit note, in the manner and within the time limits set by the Commission.

**II.6.2.** In the event of failure to pay by the deadline specified in the request for reimbursement, the sum due shall bear interest at the rate indicated in Article II.5.3. Interest shall be payable from the calendar day following the due date up to the calendar day on which the debt is repaid in full.

**II.6.3.** The Commission may, after informing the Contractor, recover amounts established as certain, of a fixed amount and due by offsetting, in cases where the Contractor also has a claim on the Communities that is certain, of a fixed amount and due. The Commission may also claim against the guarantee, where provided for.

## **ARTICLE II.7 - REIMBURSEMENTS**

**II.7.1.** Where provided by the Special Conditions or by Annex I, the Commission shall reimburse the expenses which are directly connected with execution of the tasks on production of original supporting documents, including receipts and used tickets.

- c) travel by car shall be reimbursed at the rate of one first class rail ticket for the same journey and on the same day;
- d) travel outside Community territory shall be reimbursed under the general conditions stated above provided the Commission has given its prior written agreement.

**II.7.4.** Subsistence expenses shall be reimbursed on the basis of a daily allowance as follows:

- a) for journeys of less than 200 km (return trip) no subsistence allowance shall be payable;
- b) daily subsistence allowance shall be payable only on receipt of a supporting document proving that the person concerned was present at the place of destination;

- d) daily subsistence allowance, where applicable, shall be reimbursed at the rate specified in Article I.3.3.

**II.7.5.** The cost of shipment of equipment or unaccompanied luggage shall be reimbursed provided the Commission has given prior written authorisation.

#### **ARTICLE II.8 – OWNERSHIP OF THE RESULTS - INTELLECTUAL AND INDUSTRIAL PROPERTY**

Any results or rights thereon, including copyright and other intellectual or industrial property rights, obtained in performance of the Contract, shall be owned solely by the Community, which may use, publish, assign or transfer them as it sees fit, without geographical or other limitation, except where industrial or intellectual property rights exist prior to the Contract being entered into.

#### **ARTICLE II.9 – CONFIDENTIALITY**

**II.9.1.** The Contractor undertakes to treat in the strictest confidence and not make use of or divulge to third parties any information or documents which are linked to performance of the Contract. The Contractor shall continue to be bound by this undertaking after completion of the tasks.

**II.9.2.** The Contractor shall obtain from each member of his staff, board and directors an undertaking that they will respect the confidentiality of any information which is linked, directly or indirectly, to execution of the tasks and that they will not divulge to third parties or use for their own benefit or that of any third party any document or information not available publicly, even after completion of the tasks.

#### **ARTICLE II.10 - USE, DISTRIBUTION AND PUBLICATION OF INFORMATION**

**II.10.1.** The Contractor shall authorise the Commission to process, use, distribute and publish, for whatever purpose, by whatever means and on whatever medium, any data contained in or relating to the Contract, in particular the identity of the Contractor, the subject matter, the duration, the amount paid and the reports. Where personal data is concerned, Article I.8 shall apply.

**II.10.2.** Unless otherwise provided by the Special Conditions, the Commission shall not be required to distribute or publish documents or information supplied in performance of the

Contract. If it decides not to publish the documents or information supplied, the Contractor may not have them distributed or published elsewhere without prior written authorisation from the Commission.

- II.10.3.** Any distribution or publication of information relating to the Contract by the Contractor shall require prior written authorisation from the Commission and shall mention the amount paid by the Community. It shall state that the opinions expressed are those of the Contractor only and do not represent the Commission's official position.
- II.10.4.** The use of information obtained by the Contractor in the course of the Contract for purposes other than its performance shall be forbidden, unless the Commission has specifically given prior written authorisation to the contrary.

### **ARTICLE II. 11 – TAXATION**

- II.11.1.** The Contractor shall have sole responsibility for compliance with the tax laws which apply to him. Failure to comply shall make the relevant invoices invalid.
- II.11.2.** The Contractor recognises that the Commission is, as a rule, exempt from all taxes and duties, including value added tax (VAT), pursuant to the provisions of Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Communities.
- II.11.3.** The Contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the goods and services required for performance of the Contract are exempt from taxes and duties, including VAT.
- II.11.4.** Invoices presented by the Contractor shall indicate his place of taxation for VAT purposes and shall specify separately the amounts not including VAT and the amounts including VAT.

### **ARTICLE II.12 – FORCE MAJEURE**

- II.12.1.** Force majeure shall mean any unforeseeable and exceptional situation or event beyond the control of the contracting parties which prevents either of them from performing any of their obligations under the Contract, was not due to error or negligence on their part or on the part of a subcontractor, and could not have been avoided by the exercise of due diligence. Defects in equipment or material or delays in making it available, labour disputes, strikes or financial problems cannot be invoked as force majeure unless they stem directly from a relevant case of force majeure.
- II.12.2.** Without prejudice to the provisions of Article II.1.8, if either contracting party is faced with force majeure, it shall notify the other party without delay by registered letter with acknowledgment of receipt or equivalent, stating the nature, likely duration and foreseeable effects.
- II.12.3.** Neither contracting party shall be held in breach of its contractual obligations if it has been prevented from performing them by force majeure. Where the Contractor is unable to perform his contractual obligations owing to force majeure, he shall have the right to remuneration only for tasks actually executed.

**II.12.4.** The contracting parties shall take the necessary measures to reduce damage to a minimum.

### **ARTICLE II.13 – SUBCONTRACTING**

**II.13.1.** The Contractor shall not subcontract without prior written authorisation from the Commission nor cause the Contract to be performed in fact by third parties.

**II.13.2.** Even where the Commission authorises the Contractor to subcontract to third parties, he shall none the less remain bound by his obligations to the Commission under the Contract and shall bear exclusive liability for proper performance of the Contract.

**II.13.3.** The Contractor shall make sure that the subcontract does not affect rights and guarantees to which the Commission is entitled by virtue of the Contract, notably Article II.17.

### **ARTICLE II.14 – ASSIGNMENT**

**II.14.1.** The Contractor shall not assign the rights and obligations arising from the Contract, in whole or in part, without prior written authorisation from the Commission.

**II.14.2.** In the absence of the authorisation referred to in 1 above, or in the event of failure to observe the terms thereof, assignment by the Contractor shall not be enforceable against and shall have no effect on the Commission.

### **ARTICLE II.15 – TERMINATION BY THE COMMISSION**

**II.15.1.** The Commission may terminate the Contract in the following circumstances:

- (a) where the Contractor is being wound up, is having his affairs administered by the courts, has entered into an arrangement with creditors, has suspended business activities, is the subject of proceedings concerning those matters, or is in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
- (b) where the Contractor has been convicted of an offence concerning his professional conduct by a judgment which has the force of *res judicata*;
- (c) where the Contractor has been guilty of grave professional misconduct proven by any means which the contracting authority can justify;
- (d) where the Contractor has not fulfilled obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which he is established or with those of the country applicable to the Contract or those of the country where the Contract is to be performed;
- (e) where the Commission seriously suspects the Contractor of fraud, corruption, involvement in a criminal organisation or any other illegal activity detrimental to the Communities' financial interests;
- (f) where the Contractor is in breach of his obligations under Article II.3;

- (g) where the Contractor was guilty of misrepresentation in supplying the information required by the Commission as a condition of participation in the Contract procedure or failed to supply this information;
- (h) where a change in the Contractor's legal, financial, technical or organisational situation could, in the Commission's opinion, have a significant effect on the performance of the Contract;
- (i) where execution of the tasks has not actually commenced within three months<sup>7</sup> of the date foreseen, and the new date proposed, if any, is considered unacceptable by the Commission;
- (j) where the Contractor is unable, through his own fault, to obtain any permit or licence required for performance of the Contract;
- (k) where the Contractor, after receiving formal notice in writing to comply, specifying the nature of the alleged failure, and after being given the opportunity to remedy the failure within a reasonable period following receipt of the formal notice, remains in serious breach of his contractual obligations.

**II.15.2.** In case of force majeure, notified in accordance with Article II.12, either contracting party may terminate the Contract, where performance thereof cannot be ensured for a period corresponding to at least to one fifth of the period laid down in Article I.2.3.

**II.15.3.** Prior to termination under point e), h) or k), the Contractor shall be given the opportunity to submit his observations.

Termination shall take effect on the date on which a registered letter with acknowledgment of receipt terminating the Contract is received by the Contractor, or on any other date indicated in the letter of termination.

**II.15.4.** Consequences of termination:

In the event of the Commission terminating the Contract in accordance with this Article and without prejudice to any other measures provided for in the Contract, the Contractor shall waive any claim for consequential damages, including any loss of anticipated profits for uncompleted work. On receipt of the letter terminating the Contract, the Contractor shall take all appropriate measures to minimise costs, prevent damage, and cancel or reduce his commitments. He shall draw up the documents required by the Special Conditions for the tasks executed up to the date on which termination takes effect, within a period not exceeding sixty days from that date.

The Commission may claim compensation for any damage suffered and recover any sums paid to the Contractor under the Contract.

On termination the Commission may engage any other contractor to complete the services. The Commission shall be entitled to claim from the Contractor all extra costs incurred in making good and completing the services, without prejudice to any other rights or guarantees it has under the Contract.

## **ARTICLE II.16 – LIQUIDATED DAMAGES**

Should the Contractor fail to perform his obligations under the Contract within the time limits set by the Contract, then, without prejudice to the Contractor's actual or potential liability incurred in relation to the Contract or to the Commission's right to terminate the Contract, the Commission may decide to impose liquidated damages of 0.2% of the amount specified in Article I.3.1 per calendar day of delay. The Contractor may submit arguments against this decision within thirty days of notification by registered letter with acknowledgement of receipt or equivalent. In the absence of reaction on his part or of written withdrawal by the Commission within thirty days of the receipt of such arguments, the decision imposing the liquidated damages shall become enforceable. These liquidated damages shall not be imposed where there is provision for interest for late completion. The Commission and the Contractor expressly acknowledge and agree that any sums payable under this Article are in the nature of liquidated damages and not penalties, and represent a reasonable estimate of fair compensation for the losses that may be reasonably anticipated from such failure to perform obligations.

## **ARTICLE II.17 – CHECKS AND AUDITS**

- II.17.1.** Pursuant to Article 142 of the Financial Regulation applicable to the general budget of the European Communities, the European Court of Auditors shall be empowered to audit the documents held by the natural or legal persons receiving payments from the budget of the European Communities from signature of the Contract up to five years after payment of the balance.
- II.17.2.** The Commission or an outside body of its choice shall have the same rights as the European Court of Auditors for the purpose of checks and audits limited to compliance with contractual obligations from signature of the Contract up to five years after payment of the balance.
- II.17.3.** In addition, the European Anti Fraud Office may carry out on-the-spot checks and inspections in accordance with Council Regulation (Euratom, EC) No 2185/96 and Parliament and Council Regulation (EC) No 1073/1999 from signature of the Contract up to five years after payment of the balance.

## **ARTICLE II.18 – AMENDMENTS**

Any amendment to the Contract shall be the subject of a written agreement concluded by the contracting parties. An oral agreement shall not be binding on the contracting parties.

## **ARTICLE II.19 – SUSPENSION OF THE CONTRACT**

Without prejudice to the Commission's right to terminate the Contract, the Commission may at any time and for any reason suspend execution of the tasks under the Contract or any part thereof. Suspension shall take effect on the day the Contractor receives notification by registered letter with acknowledgment of receipt or equivalent, or at a later date where the notification so provides. The Commission may at any time following suspension give notice to the Contractor to resume the work suspended. The Contractor shall not be entitled to claim compensation on account of suspension of the Contract or of part thereof.
