## **I. SPECIFICATIONS**

### **I.1. Introduction**

The Directorate General for Energy and Transport, Unit H.4, Radiation protection (TREN H.4), is responsible for the radiological emergency preparedness arrangements within the European Commission. An important part of these arrangements is the ability to quickly assess possible radiological emergency or emergency threat situations and advise other European Commission services on their seriousness, possible future development and any possible European Community action required.

### **I.2. Purpose of the contract**

Unit TREN H.4 is strengthening its expertise in the field of radiological emergency management in the Commission. TREN H.4 has published this call for tender in order to make additional support resources available to the TREN H.4 emergency team during emergency situations. The Unit would like to establish strong support link between the TREN H.4 emergency team and a leading EU Member State or Candidate Country radiological emergency preparedness organisation, “the contractor”. The support duration is 36 months starting on 1 April 2010. The support is intended to be activated at any time and maintained on a 24h basis during an emergency.

### **I.3. Requirements for contractor's radiological emergency preparedness arrangements**

#### *I.3.1. Availability*

The contractor is required to indicate a 24h contact point in order to receive an activation notification (fax or mobile phone) from the Commission. After receiving the first notification, the contractor is required to initiate the emergency support arrangements described in section I.4. within two (2) hours.

#### *I.3.2. Access to websites*

The contractor is required to provide the TREN H.4 emergency team with access to their relevant emergency information websites during the contract period.

#### *I.3.3. Exchange of rosters*

On a regular basis, the Commission and the contractor provide each other with the roster lists of their radiological emergency preparedness duty officers and their contact information. The Commission must at all times know how to contact the contractor's duty officer.

#### *I.3.4. Training*

The contractor is required to train a core team (minimum 4 persons) within its emergency preparedness personnel. Persons in the core team must be trained to liaise between the contractor and the TREN H.4 emergency team during emergency activations and exercises.

#### **I.4. Requirements for contractor's arrangements in the event of a radiological emergency**

The arrangements described in this section become valid only when the unit TREN H.4 decides to activate its emergency team. The TREN H.4 emergency team will then contact the contractor's duty officer and inform him/her that the TREN H.4 emergency team has been activated and the contractor should activate the arrangements for Commission support within two (2) hours. These arrangements are maintained until the TREN H.4 emergency team informs the contractor that the TREN H.4 emergency team has been deactivated.

Decisions on activation and deactivation are made solely by the Commission. Possible activation scenarios include for example:

- Radiological emergency alert message received by the Commission from an EU Member State, an EU Candidate Country, a State neighbouring the EU or from the International Atomic Energy Agency (IAEA);
- Serious radioactive contamination or public radiation exposure situation in an EU Member State or EU Candidate Country;
- Other situations where a major radiological threat to the EU general public or territory is deemed to exist;
- Credible threat of a major radiological accident or attack involving radioactive substances anywhere in the world;
- Detonation of a nuclear or radiological weapon anywhere in the world;
- Major radiological emergency or attack involving radioactive substances anywhere in the world.

In the event of activation the contractor is required to take the following action in order to support the TREN H.4 emergency team:

##### *1.4.1. Liaison officers*

The contractor must nominate English-speaking liaison officers from the core team for the Commission support. These officers should arrange their work and communication so that the support communication with the TREN H.4 emergency team can be maintained continuously on a 24h basis during the emergency.

##### *1.4.2. Information support*

Where applicable, the contractor should keep the TREN H.4 emergency team updated on any new information on the following topics:

###### **(a) Basic accident facility information**

The contractor is required to communicate without delay all available information about the accident facility type, basic technical information, layouts, location, operational history etc.

### **(b) Facility status analysis**

The contractor is required to communicate without delay all available information on the accident facility technical status and foreseeable on-site development of the emergency. This information must be updated continuously according to the situation development. The contractor should also analyse the available information on on-site countermeasures and assess the possibility of a radioactive release in the environment.

### **(c) Atmospheric dispersion forecasts**

The contractor is required to communicate without delay all available results of atmospheric dispersion calculations and forecasted radioactive release path trajectories. This information must be based on the latest meteorological data and it must be updated according to situation development.

#### *1.4.3. Decision making support*

During the emergency the contractor is required to assess the accident consequences on the food chain and give a recommendation of the need to implement the Community emergency foodstuff regulations (Council Regulation 87/3954/EURATOM).

Additionally, the contractor is required to provide the TREN H.4 emergency team on a regular basis updated assessments on the possible need to implement off-site countermeasures to protect the general public, international travel and trade or the environment. It should be noted that these assessments are provided in order to estimate the effect of different countermeasure scenarios at the TREN H.4 emergency team. The Commission has no authority to neither implement nor recommend any countermeasures on Member States' territory other than the Community emergency foodstuff regulations.

#### *1.4.4. Public information support*

During emergency activation the TREN H.4 emergency team will send the contractor draft versions of European Commission public information releases concerning the emergency. The contractor is required to verify the accuracy and adequacy of these releases within one hour of receipt.

#### *1.4.5. Practical arrangements*

##### **(a) Communication**

During emergency activation the liaison between the Commission and the contractor is carried out through telephone, fax and email. Communication language is always English.

Since this is bilateral communication, the contractors should not send information intended for Commission support under this contract through any of the ECURIE network communication channels. The Commission will communicate the TREN H.4 emergency team communication details to the contractors.

## **(b) Activity logbook**

During emergency activation the contractor is required to maintain a logbook of all liaisons with the TREN H.4 emergency team.

### **I.5. Support exercises**

The arrangements described in section I.4 will be exercised once a year in the context of the annual ECURIE level 3 exercise or any other international radiological emergency exercise, in which the Commission participates. Duration of the annual exercise shall not exceed 24 hours. The Commission decides the exercise date based on a decision in an ECURIE Competent Authorities' meeting and communicates the date to the contractor at least one month before the exercise.

During exercise activation the contractor is required to maintain a logbook of all liaisons with the TREN H.4 emergency team.

### **I.6. Reports and documents to produce - Timetable to observe**

Execution of the contract tasks begins on the 1st April 2010.

A kick-off meeting will take place in Luxembourg, at the latest 60 days following the signature of the contract, in order to settle all the details of the support activity. At least three members of the contractor core group are required to attend the kick-off meeting.

The contractor is required to provide reports of the support activity under the contract. The reports can be written in English or French. The reports should cover the following aspects:

- Arrangements made by the contractor in order to fulfil the preparedness requirements.
- Report on support activity during possible emergency activation situations during the report period and copy of the support logbook during the activation periods.
- Report on the support activity during the annual exercise and copy of the support logbook during the exercise.
- Report on possible new capabilities included in the support resources during the report period.

#### *I.6.1. Interim reports*

For the first year, an interim report is to be submitted after 12 months activities within 30 days of the end of the report period.

For the second year, a second interim report is to be submitted after 24 months activities within 30 days of the end of the report period.

The Commission shall have 45 days from receipt to approve or reject the reports. Within 20 days of receiving the Commission's observations, the Contractor will submit additional information or another report.

### *I.6.2. Final report*

After the third year, a final report is to be submitted within 30 days of the end of the full contract period.

The Commission shall have 45 days from receipt to approve or reject the final report, and the Contractor shall have 20 days in which to submit additional information or a new final report.

### *I.6.3. Report format and publication*

Copies of the reports shall be supplied in paper form and one copy in electronic form, either in MS Word or in HTML format.

## **I.7. Duration of the tasks**

The duration of the support shall be 36 months, starting on 1 April 2010.

## **I.8. Place of performance**

The tasks will be performed on the Contractor's premises. However, meetings between the contractor and the Commission may also be held on Commission premises in Luxembourg.

## **I.9. Estimate of the amount of work involved**

The amount of work involved to carry out this contract is assessed at 60 man-days.

## **II. TERMS OF CONTRACT**

In drawing up his offer, the tenderer should bear in mind the provisions of the draft contract attached to this invitation to tender (Annex 5). Any limitation, amendment or denial of the terms of contract will lead to automatic exclusion from the procurement procedure.

The Commission may, before the contract is signed, either abandon the procurement procedure or cancel the award procedure without the tenderers being entitled to claim any compensation.

### **II.1. Terms of payment**

Payments shall be made in accordance with the provisions specified in Annex 5 of the draft service contract

### **II.2. Financial guarantees**

#### **Guarantee on pre-financing**

For any pre-financing higher than 100,000 EUR, a financial guarantee equivalent to the amount of the pre-financing will be requested.

Depending on the financial situation of the tenderer, the Commission may ask for the financial guarantee for amounts lower than 100,000 EUR.

### **II.3. Subcontracting**

If the tenderer intends to subcontract part of the service, he shall indicate in his offer which part will be subcontracted and to what extent (% of the total contract value).

Tenderers must inform the subcontractor(s) that Article II.17 of the contract (Annex 5) will be applied to them. Once the contract has been signed, Article II.13 of the above-mentioned contract shall govern the subcontracting.

### **II.4. Legal form to be taken by the grouping of service providers to whom the contract is awarded (if applicable)**

Groupings, irrespective of their legal form, may submit bids. Tenderers may, after forming a grouping, submit a joint bid on condition that it complies with the rules of competition. Such groupings (or consortium) must specify the company or person heading the project and must also submit a copy of the document authorising this company or person to submit a bid. If awarded, the contract will be signed by the company or the person heading the project, who will be, vis à vis the Commission, the only contracting party responsible for the performance of this contract. Tenders from a consortium of firms or groups of service providers, contractors or suppliers must specify the role, qualifications and experience of each member of the consortium or group. Each member must provide all the necessary documents for assessing the bid as a whole with regard to the exclusion criteria, selection criteria (all of them) and award criteria.

### III. FORM AND CONTENT OF THE TENDER

#### III.1. General

Tenders must be written in **one of the official languages** of the European Union.

Tenders must be clear and concise, with continuous page numbering, and assembled in a coherent fashion (e.g. bound or stapled, etc...). Since tenderers will be judged on the content of their written bids, they must make it clear that they are able to meet the requirements of the specifications.

#### III.2. Structure of the tender

All tenders must include three sections i.e. an administrative, a technical and a financial proposal.

##### III.2.1. *Section One: Administrative proposal*

This section must provide the following information, set out in the standard identification forms attached to these tender specifications (Annexes 1, 2 and 3):

- Tenderers' identification (Annex 1)
  - All tenderers must provide proof of **registration**, as prescribed in their country of establishment, on one of the **professional or trade registers** or provide a declaration or certificate.
  - If the tenderer is a natural person, he/she must provide a copy of the identity card/passport or driving licence and proof that he/she is covered by a social security scheme as a self-employed person.

*Each service provider (including subcontractor(s) or any member of a consortium or grouping) must complete and sign the identification forms in Annex 1 and also provide above-mentioned documents. However, the subcontractor(s) shall not be required to fill in or provide those documents when the services represent less than 20% of the contract.*

- Financial identification (Annex 2)

The **bank identification form** must be filled in and signed by an authorised representative of the tenderer and his/her banker. A standard form is attached in Annex 2 and a specific form for each Member State is available at the following Internet address:

[http://ec.europa.eu/budget/execution/ftiers\\_en.htm](http://ec.europa.eu/budget/execution/ftiers_en.htm).

In the case of a grouping, this form must only be provided by the person heading the project.

- Legal entities (Annex 3)

The legal entity form in Annex 3 must be filled in and should be accompanied by a number of supporting documents, available on the Web site:

[http://ec.europa.eu/budget/execution/legal\\_entities\\_en.htm](http://ec.europa.eu/budget/execution/legal_entities_en.htm)

In the case of a grouping, this form must only be provided by the person heading the project.

The Commission reserves the right, however, to request additional evidence in relation to the bid submitted for evaluation or verification purposes within a time-limit stipulated in its request.

### *III.2.2. Section Two: Technical proposal*

This section is of great importance in the assessment of the bids, the award of the contract and the future execution of any resulting contract.

The section should be broken down under the following headings and shall contain all information which is needed to meet the award criteria:

#### **Background**

Description of the contractor's emergency preparedness organisation and experience in the field of radiological emergency preparedness. Core team members must be identified and their curriculum vitae included in the tender.

#### **Preparedness**

Description of the contractor's arrangements to meet the emergency preparedness requirements, as described in section I.3.

#### **Emergency support capabilities**

Description of the contractor's arrangements to meet the support requirements during emergency, as described in section I.4.

#### **Exercises**

Description of the contractor's arrangements to meet the exercise requirements, as described in section I.5.

### *III.2.3. Section Three: Financial proposal*

All tenders must contain a financial proposal. The tenderer's attention is drawn to the following points:

- Prices must be quoted in **euros**, including the countries which are not in the euro-area. As far as the tenderers of those countries are concerned, they cannot change the amount of the bid because of the evolution of the exchange rate. The tenderers choose the exchange rate and assume all risks or opportunities relating to the rate fluctuation.

- Prices must be fixed amounts and include all expenses, such as travel expenses and daily allowances.
- **Prices should be quoted free of all duties, taxes and other charges, i.e. also free of VAT**, as the Communities are exempt from such charges in the EU under Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Communities of 8 April 1965 (OJ L 152 of 13 July 1967). Exemption is granted to the Commission by the governments of the Member States, either through refunds upon presentation of documentary evidence or by direct exemption. For those countries where national legislation provides an exemption by means of a reimbursement, the amount of VAT is to be shown separately. In case of doubt about the applicable VAT system, it is the tenderer's responsibility to contact his or her national authorities to clarify the way in which the European Community is exempt from VAT;
- **Prices shall be fixed** and not subject to revision during the performance of the contract;
- For each category of staff involved in the project, the tenderer must specify:
  - the total labour costs;
  - **the daily rates** and **total number of days** (man/days) each member of staff will contribute to the project;
  - other categories of costs, indicating the nature of the cost, the total amount, the unit price and the quantity.

**Bids involving more than one service provider (consortium) must specify the amounts indicated above for each provider.**

## **IV. ASSESSMENT AND AWARD OF THE CONTRACT**

The assessment will be based on each tenderer's bid.

All the information will be assessed in the light of the criteria set out in these specifications. The procedure for the award of the contract, which will concern only admissible bids (see IV.1), will be carried out in three successive stages.

The aim of each of these stages is:

- 1) to check on the basis of the exclusion criteria, whether tenderers can take part in the tendering procedure;
- 2) to check on the basis of the selection criteria, the technical and professional capacity and economic and financial capacity of each tenderer;
- 3) to assess on the basis of the award criteria each bid which has passed the exclusion and selection stages.

### **IV.1. Exclusion criteria (exclusion of tenderers)**

#### *IV.1.1. Exclusion criteria (Article 93 Financial Regulation<sup>1</sup>)*

1. To be eligible for participating in this contract award procedure, tenderers must not be in any of the following situations:

In such a case, the tenderer shall declare on his honour that the documentary evidence has already been provided in a previous procurement procedure, specifying the reference of the call for tender for which the documents have been provided, and confirm that no changes in his situation have occurred.

### **ARTICLE II.5 – GENERAL PROVISIONS CONCERNING PAYMENTS**

**II.5.1.** Payments shall be deemed to have been made on the date on which the Commission's account is debited.

**II.5.2.** The payment periods referred to in Article I.4 may be suspended by the Commission at any time if it informs the Contractor that his payment request is not admissible, either because the amount is not due or because the necessary supporting documents have not been properly produced. In case of doubt on the eligibility of the expenditure indicated in the payment request, the Commission may suspend the time limit for payment for the purpose of further verification, including an on-the-spot check, in order to ascertain, prior to payment, that the expenditure is eligible.

The Commission shall notify the Contractor accordingly by registered letter with acknowledgment of receipt or equivalent. Suspension shall take effect from the date of dispatch of the letter. The remainder of the period referred to in Article I.4 shall begin to run again once the suspension has been lifted.

**II.5.3.** In the event of late payment the Contractor may claim interest within two months of receiving the payment. Interest shall be calculated at the rate applied by the European Central Bank to its most recent main refinancing operations (“*the reference rate*”) plus seven percentage points (“*the margin*”). The reference rate in force on the first day of the month in which the payment is due shall apply. Such interest rate is published in the C series of the Official Journal of the European Union. Interest shall be payable for the period elapsing from the calendar day following expiry of the time limit for payment up to the day of payment. Suspension of payment by the Commission may not be deemed to constitute late payment.

## **ARTICLE II.6 – RECOVERY**

**II.6.1.** If total payments made exceed the amount actually due under the Contract or if recovery is justified in accordance with the terms of the Contract, the Contractor shall reimburse the appropriate amount in euro on receipt of the debit note, in the manner and within the time limits set by the Commission.

**II.6.2.** In the event of failure to pay by the deadline specified in the request for reimbursement, the sum due shall bear interest at the rate indicated in Article II.5.3. Interest shall be payable from the calendar day following the due date up to the calendar day on which the debt is repaid in full.

**II.6.3.** The Commission may, after informing the Contractor, recover amounts established as certain, of a fixed amount and due by offsetting, in cases where the Contractor also has a claim on the Communities that is certain, of a fixed amount and due. The Commission may also claim against the guarantee, where provided for.

## **ARTICLE II.7 - REIMBURSEMENTS**

**II.7.1.** Where provided by the Special Conditions or by Annex I, the Commission shall reimburse the expenses which are directly connected with execution of the tasks on production of original supporting documents, including receipts and used tickets.

**II.7.2.** Travel and subsistence expenses shall be reimbursed, where appropriate, on the basis of the shortest itinerary.

**II.7.3.** Travel expenses shall be reimbursed as follows:

- a) travel by air shall be reimbursed up to the maximum cost of an economy class ticket at the time of the reservation;
- b) travel by boat or rail shall be reimbursed up to the maximum cost of a first class ticket;
- c) travel by car shall be reimbursed at the rate of one first class rail ticket for the same journey and on the same day;
- d) travel outside Community territory shall be reimbursed under the general conditions stated above provided the Commission has given its prior written agreement.

**II.7.4.** Subsistence expenses shall be reimbursed on the basis of a daily allowance as follows:

- a) for journeys of less than 200 km (return trip) no subsistence allowance shall be payable;
- b) daily subsistence allowance shall be payable only on receipt of a supporting document proving that the person concerned was present at the place of destination;
- c) daily subsistence allowance shall take the form of a flat-rate payment to cover all subsistence expenses, including accommodation, meals, local transport, insurance and sundries;
- d) daily subsistence allowance, where applicable, shall be reimbursed at the rate specified in Article I.3.3.

**II.7.5.** The cost of shipment of equipment or unaccompanied luggage shall be reimbursed provided the Commission has given prior written authorisation.

## **ARTICLE II.8 – OWNERSHIP OF THE RESULTS - INTELLECTUAL AND INDUSTRIAL PROPERTY**

Any results or rights thereon, including copyright and other intellectual or industrial property rights, obtained in performance of the Contract, shall be owned solely by the Community, which may use, publish, assign or transfer them as it sees fit, without geographical or other limitation, except where industrial or intellectual property rights exist prior to the Contract being entered into.

## **ARTICLE II.9 – CONFIDENTIALITY**

**II.9.1.** The Contractor undertakes to treat in the strictest confidence and not make use of or divulge to third parties any information or documents which are linked to performance of the Contract. The Contractor shall continue to be bound by this undertaking after completion of the tasks.

**II.9.2.** The Contractor shall obtain from each member of his staff, board and directors an undertaking that they will respect the confidentiality of any information which is linked, directly or indirectly, to execution of the tasks and that they will not divulge to third parties or use for their own benefit or that of any third party any document or information not available publicly, even after completion of the tasks.

## **ARTICLE II.10 - USE, DISTRIBUTION AND PUBLICATION OF INFORMATION**

**II.10.1.** The Contractor shall authorise the Commission to process, use, distribute and publish, for whatever purpose, by whatever means and on whatever medium, any data contained in or relating to the Contract, in particular the identity of the Contractor, the subject matter, the duration, the amount paid and the reports. Where personal data is concerned, Article I.8 shall apply.

**II.10.2.** Unless otherwise provided by the Special Conditions, the Commission shall not be required to distribute or publish documents or information supplied in performance of the Contract. If it decides not to publish the documents or information supplied, the Contractor may not have them distributed or published elsewhere without prior written authorisation from the Commission.

- II.10.3.** Any distribution or publication of information relating to the Contract by the Contractor shall require prior written authorisation from the Commission and shall mention the amount paid by the Community. It shall state that the opinions expressed are those of the Contractor only and do not represent the Commission's official position.
- II.10.4.** The use of information obtained by the Contractor in the course of the Contract for purposes other than its performance shall be forbidden, unless the Commission has specifically given prior written authorisation to the contrary.

## **ARTICLE II. 11 – TAXATION**

- II.11.1.** The Contractor shall have sole responsibility for compliance with the tax laws which apply to him. Failure to comply shall make the relevant invoices invalid.
- II.11.2.** The Contractor recognises that the Commission is, as a rule, exempt from all taxes and duties, including value added tax (VAT), pursuant to the provisions of Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Communities.
- II.11.3.** The Contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the goods and services required for performance of the Contract are exempt from taxes and duties, including VAT.
- II.11.4.** Invoices presented by the Contractor shall indicate his place of taxation for VAT purposes and shall specify separately the amounts not including VAT and the amounts including VAT.

## **ARTICLE II.12 – FORCE MAJEURE**

- II.12.1.** Force majeure shall mean any unforeseeable and exceptional situation or event beyond the control of the contracting parties which prevents either of them from performing any of their obligations under the Contract, was not due to error or negligence on their part or on the part of a subcontractor, and could not have been avoided by the exercise of due diligence. Defects in equipment or material or delays in making it available, labour disputes, strikes or financial problems cannot be invoked as force majeure unless they stem directly from a relevant case of force majeure.
- II.12.2.** Without prejudice to the provisions of Article II.1.8, if either contracting party is faced with force majeure, it shall notify the other party without delay by registered letter with acknowledgment of receipt or equivalent, stating the nature, likely duration and foreseeable effects.
- II.12.3.** Neither contracting party shall be held in breach of its contractual obligations if it has been prevented from performing them by force majeure. Where the Contractor is unable to perform his contractual obligations owing to force majeure, he shall have the right to remuneration only for tasks actually executed.
- II.12.4.** The contracting parties shall take the necessary measures to reduce damage to a minimum.

### **ARTICLE II.13 – SUBCONTRACTING**

- II.13.1.** The Contractor shall not subcontract without prior written authorisation from the Commission nor cause the Contract to be performed in fact by third parties.
- II.13.2.** Even where the Commission authorises the Contractor to subcontract to third parties, he shall none the less remain bound by his obligations to the Commission under the Contract and shall bear exclusive liability for proper performance of the Contract.
- II.13.3.** The Contractor shall make sure that the subcontract does not affect rights and guarantees to which the Commission is entitled by virtue of the Contract, notably Article II.17.

### **ARTICLE II.14 – ASSIGNMENT**

- II.14.1.** The Contractor shall not assign the rights and obligations arising from the Contract, in whole or in part, without prior written authorisation from the Commission.
- II.14.2.** In the absence of the authorisation referred to in 1 above, or in the event of failure to observe the terms thereof, assignment by the Contractor shall not be enforceable against and shall have no effect on the Commission.

### **ARTICLE II.15 – TERMINATION BY THE COMMISSION**

- II.15.1.** The Commission may terminate the Contract in the following circumstances:
- (a) where the Contractor is being wound up, is having his affairs administered by the courts, has entered into an arrangement with creditors, has suspended business activities, is the subject of proceedings concerning those matters, or is in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
  - (b) where the Contractor has been convicted of an offence concerning his professional conduct by a judgment which has the force of *res judicata*;
  - (c) where the Contractor has been guilty of grave professional misconduct proven by any means which the contracting authority can justify;
  - (d) where the Contractor has not fulfilled obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which he is established or with those of the country applicable to the Contract or those of the country where the Contract is to be performed;
  - (e) where the Commission seriously suspects the Contractor of fraud, corruption, involvement in a criminal organisation or any other illegal activity detrimental to the Communities' financial interests;
  - (f) where the Contractor is in breach of his obligations under Article II.3;
  - (g) where the Contractor was guilty of misrepresentation in supplying the information required by the Commission as a condition of participation in the Contract procedure or failed to supply this information;

- (h) where a change in the Contractor's legal, financial, technical or organisational situation could, in the Commission's opinion, have a significant effect on the performance of the Contract;
- (i) where execution of the tasks has not actually commenced within three months<sup>7</sup> of the date foreseen, and the new date proposed, if any, is considered unacceptable by the Commission;
- (j) where the Contractor is unable, through his own fault, to obtain any permit or licence required for performance of the Contract;
- (k) where the Contractor, after receiving formal notice in writing to comply, specifying the nature of the alleged failure, and after being given the opportunity to remedy the failure within a reasonable period following receipt of the formal notice, remains in serious breach of his contractual obligations.

**II.15.2.** In case of force majeure, notified in accordance with Article II.12, either contracting party may terminate the Contract, where performance thereof cannot be ensured for a period corresponding to at least to one fifth of the period laid down in Article I.2.3.

**II.15.3.** Prior to termination under point e), h) or k), the Contractor shall be given the opportunity to submit his observations.

Termination shall take effect on the date on which a registered letter with acknowledgment of receipt terminating the Contract is received by the Contractor, or on any other date indicated in the letter of termination.

**II.15.4.** Consequences of termination:

In the event of the Commission terminating the Contract in accordance with this Article and without prejudice to any other measures provided for in the Contract, the Contractor shall waive any claim for consequential damages, including any loss of anticipated profits for uncompleted work. On receipt of the letter terminating the Contract, the Contractor shall take all appropriate measures to minimise costs, prevent damage, and cancel or reduce his commitments. He shall draw up the documents required by the Special Conditions for the tasks executed up to the date on which termination takes effect, within a period not exceeding sixty days from that date.

The Commission may claim compensation for any damage suffered and recover any sums paid to the Contractor under the Contract.

On termination the Commission may engage any other contractor to complete the services. The Commission shall be entitled to claim from the Contractor all extra costs incurred in making good and completing the services, without prejudice to any other rights or guarantees it has under the Contract.

## **ARTICLE II.16 – LIQUIDATED DAMAGES**

Should the Contractor fail to perform his obligations under the Contract within the time limits set by the Contract, then, without prejudice to the Contractor's actual or potential liability incurred in relation to the Contract or to the Commission's right to terminate the Contract, the Commission may decide to impose liquidated damages of 0.2% of the amount specified in Article I.3.1 per calendar day of delay. The Contractor may submit arguments against this decision within thirty days of notification by registered letter with acknowledgement of receipt or equivalent. In the absence of reaction on his part or of written withdrawal by the Commission within thirty days of the receipt of such arguments, the decision imposing the liquidated damages shall become enforceable. These liquidated damages shall not be imposed where there is provision for interest for late completion. The Commission and the Contractor expressly acknowledge and agree that any sums payable under this Article are in the nature of liquidated damages and not penalties, and represent a reasonable estimate of fair compensation for the losses that may be reasonably anticipated from such failure to perform obligations.

## **ARTICLE II.17 – CHECKS AND AUDITS**

- II.17.1.** Pursuant to Article 142 of the Financial Regulation applicable to the general budget of the European Communities, the European Court of Auditors shall be empowered to audit the documents held by the natural or legal persons receiving payments from the budget of the European Communities from signature of the Contract up to five years after payment of the balance.
- II.17.2.** The Commission or an outside body of its choice shall have the same rights as the European Court of Auditors for the purpose of checks and audits limited to compliance with contractual obligations from signature of the Contract up to five years after payment of the balance.
- II.17.3.** In addition, the European Anti Fraud Office may carry out on-the-spot checks and inspections in accordance with Council Regulation (Euratom, EC) No 2185/96 and Parliament and Council Regulation (EC) No 1073/1999 from signature of the Contract up to five years after payment of the balance.

## **ARTICLE II.18 – AMENDMENTS**

Any amendment to the Contract shall be the subject of a written agreement concluded by the contracting parties. An oral agreement shall not be binding on the contracting parties.

## **ARTICLE II.19 – SUSPENSION OF THE CONTRACT**

Without prejudice to the Commission's right to terminate the Contract, the Commission may at any time and for any reason suspend execution of the tasks under the Contract or any part thereof. Suspension shall take effect on the day the Contractor receives notification by registered letter with acknowledgment of receipt or equivalent, or at a later date where the notification so provides. The Commission may at any time following suspension give notice to the Contractor to resume the work

suspended. The Contractor shall not be entitled to claim compensation on account of suspension of the Contract or of part thereof.
