

PARLAMENT ČESKÉ REPUBLIKY
SENÁT

7th term

**561st RESOLUTION
OF THE SENATE**

Delivered on the 23rd session held on 22 September 2010

on the Communication from the Commission to the European Parliament, the Council and the European Economic and Social Committee – A European strategy on clean and energy efficient vehicles

(Senate Press no. K 109/07)

The Senate

I.

R e g a r d s

the strategy as proposed by the Commission to be well-balanced and, at the same time, considers its extent of ambition to be adequate to the current economic situation in the EU;

II.

1. S u p p o r t s

the technologically neutral tone of the strategy;

2. U n d e r l i n e s t h e i m p o r t a n c e

of the standardization and common norms for new technologies and infrastructure networks based on these technologies;

3. R e g a r d s a s c r u c i a l

that, when preparing new European standards for clean and energy efficient cars, the conditions of non-European car makers are taken into account so that the competitiveness of the European car industry is not jeopardized;

4. I n v i t e s

the Commission to focus on the non-discriminative impact on individual producers when drafting proposals for demand-side support measures for green cars;

5. A p p e a l s

to the Commission to update the strategy relating to bio-fuels so that it reflects the current state of scientific research in this area;

III.

1. R e q u e s t s

the government to inform the Senate about the way this position was taken into account, and about following initiatives by the Commission;

2. A u t h o r i s e s

the President of the Senate to forward this resolution to the European Commission.
