

**Opinion of the Chamber of Deputies on the proposal for a Regulation of the European Parliament and of the Council on preventing the dissemination of terrorist content online - A contribution from the European Commission to the Leader's meeting in Salzburg on 19-20 September 2018 A contribution from the European Commission to the Leader's meeting in Salzburg on 19-20 September 2018
COM(2018) 640**

The Chamber of Deputies supports the proposal for a regulation as a whole, but expresses its concern about a number of issues such as possible violations of the freedom of expression, possible abusive use of the provisions of the Regulation in the competitive environment, and the use of Horizon 2020 programme to support research. On the other hand, the Chamber of Deputies recommends the explanation of the concept of dissemination, in order to remove, for example, purely humorous content, the clarification in technical terms of the extent of elimination and preservation of online content, the harmonization of penalties in the Member States for failure to systematically comply with the obligations of systematic elimination of terrorist content.
