

**Opinion of the Romanian Chamber of Deputies on the  
Communication from the Commission to the European Parliament, the Council, the  
European Economic and Social Committee and the Committee of the Regions – A  
sustainable Bioeconomy for Europe: Strengthening the connection between economy,  
society and the environment  
COM(2018) 673**

The Chamber of Deputies:

1. Welcomes and supports the interest for a sustainable bioeconomy for Europe, which contributes to the strengthening of the industrial base of the European Union, by creating more ecologic and efficient new value chains and industrial processes in terms of costs.
2. Recalls that a European priority is the necessity to financially support the maintaining of healthy ecosystems, as objective to which the bioeconomy fully contributes, as well as making the most of the potential of circular bioeconomy, to successfully function at city levels, through circular urban development plans which represent major tools of generating economic and environment gains.
3. Underlines the necessity to coherently plan and implement the research programmes and innovation initiatives at EU level, so that the strategic approach of applying the results of innovation rely on pursuing economic, social and ecologic advantages, simultaneously with encouraging bioeconomy.
