

**Opinion of the Romanian Chamber of Deputies on the
Communication from the Commission to the European Parliament, the Council, the
European Economic and Social Committee and the Committee of the Regions
Building Trust in Human-Centric Artificial Intelligence
COM(2019) 168**

The Chamber of Deputies supports the objectives and actions proposed by the Commission, recommends supporting education based on AI, its applications in technical fields, private initiatives in the area of artificial intelligence services.

Also, the Chamber recommends: expansion of the use of AI at pilot level in programmes managed by the European Commission, support of the European Alliance for AI, the analysis of the participation of developed third countries to EU's research programmes, especially the Horizon Europe, the organisation of extensive public consultations that highlight the expectations and needs of the citizens.

The Chamber of Deputies manifests its restraint regarding the opportunity and effectiveness of scientific research centres in the field of AI which will be set by the Horizon Europe programme.
