

**Opinion of the Romanian Chamber of Deputies on the
Proposal for a Regulation of the European Parliament and of the Council
on the European Institute of Innovation and Technology (recast)
COM(2019) 331**

The Chamber of Deputies supports the proposal for a recast of the Regulation of the European Parliament and of the Council on the European Institute of Innovation and Technology (EIT) and the consistent pursuit of EIT objectives in the field of education, promotion and development of innovation related skills in all areas, in particular advanced information technology (IT), artificial intelligence, and non-IT sectors, engineering, creativity and education sciences.

In order to achieve the objectives proposed by this document, considers it necessary to assess how the EIT carries out its role and to assess the activity of the Communities of knowledge and innovation to include the impact on the single market and free competition.
