EU Strategy on Combating Antisemitism and Fostering Jewish Life (2021-2030)**

COM(2021) 615

The Chamber of Deputies supports the EU Strategy on Combating Antisemitism reaffirming the strong commitment of the Union for the fundamental values of the European construct, recommending memorial and educative policies on the history of the Holocaust and combating antisemitism by supporting dialogue between Jewish communities and other organisations.

The Chamber of Deputies emphasises the value of the scientific and artistic contribution of Jews and Jewish communities to the development of Europe, and the maintenance of solid Jewish communities in the European Union contributes to socio-cultural diversity and leads to increasing the capacity of society to provide minority citizens with increased chances of personal and professional achievement, as well as the support and rehabilitation of historical Jewish places of worship, with European heritage value.

Also, the Chamber of Deputies recommends strengthening measures to prevent and combat the anti-Semitic activity of radical groups and to strengthen joint efforts to bring violent anti-Semitic acts to justice.
