

**ROMANIAN PARLIAMENT**  
**CHAMBER OF DEPUTIES**

**Executive Summary**

Decision to adopt the Opinion on the  
**Proposal for a Decision of the European Parliament and of the Council**  
**on a European Year of Youth 2022**  
**COM(2021) 634**

The Chamber of Deputies supports the proposal for the European Year of Youth 2022 and the creation of a genuine European education area by 2025, where there are no boundaries and barriers, and where the experience of the Member States and the joint effort of all political forces should be capitalized.

Furthermore, the European Year of Youth represents an excellent opportunity to capitalize the potential of the Erasmus+ program, in an overall vision, with access to Asia, Africa and South America.

The Chamber of Deputies makes recommendations on this communication regarding:

- the creation of opportunities for the excellent health of young people, by promoting sports and outdoor recreational activities and of a healthy diet;
- the support of young people in rural areas, especially those in isolated or disadvantaged areas, and involving them in cultural and non-formal education initiatives;
- the attraction of the business environment to create a space for young people to turn challenges into opportunities, in an entrepreneurial spirit;
- the rediscover of added value in transnational actions that will have a visible and immediate impact on young people;
- the use of the European Year of Youth for the development of mechanisms to promote the European Union's dialogue with young people.

Moreover, the Chamber of Deputies considers that the monitoring and evaluation mechanisms will be used to be implemented with the support of the European Commission, in order not to increase excessively the administrative burden of the Member States.
