

**Decision of the Romanian Chamber of Deputies to adopt the
Opinion on the Communication from the Commission to the European Parliament, the
European Council, the Council, the European Economic and Social Committee and the
Committee of the Regions**

Towards a green, digital and resilient economy: our European Growth Model

The Chamber of Deputies:

- Supports the objectives and actions envisaged at EU level to ensure a green, digital and resilient economy as a European growth model;
- Stresses the importance of collaboration between all stakeholders, especially in rural areas, in order to achieve a comprehensive and rapid impact of provisions designed to support households and businesses, implement the European Green Deal and the Digital Agenda for Europe;
- Stresses the importance of harmonised efforts at European Union level to digitise education services in a way that ensures the appropriate response of formal and non-formal education, self-taught education to current labour market requirements and seize opportunities for entrepreneurship in order to relaunch the single market in the context of the green and data-driven economy.
