---

The Digital Agenda contains 101 actions, in 7 pillars, which will help to reboot the EU economy and enable Europe's citizens and businesses to get the most out of digital technologies.

The DAE is not just about ticking-off items from a long list, it is about using technologies to make a real difference. The DAE contains 13 specific goals which encapsulate the change we want to achieve:

1. the entire EU to be covered by broadband by 2013.
2. the entire EU to be covered by broadband above 30 Mbps by 2020
3. 50 % of the EU to subscribe to broadband above 100 Mbps by 2020
4. 50 % of the population to buy online by 2015
5. 20 % of the population to buy online cross-border by 2015
6. 33 % of SMEs to make online sales/purchases by 2015
7. the difference between roaming and national tariffs to approach zero by 2015
8. to increase regular internet usage from 60 % to 75 % by 2015, and from 41 % to 60 % among disadvantaged people.
9. to halve the proportion of the population that has never used the internet from 30 % to 15 % by 2015
10. 50 % of citizens to use eGovernment by 2015, with more than half returning completed forms
11. all key cross-border public services, to be agreed by Member States in 2011, to be available online by 2015
12. to double public investment in ICT R&D to € 11 bn by 2020
13. to reduce energy use of lighting by 20% by 2020

Progress against these targets is measured in the annual [Digital Agenda Scoreboard](#) [1] where you can see [how each Member State](#) [2] is achieving, [download complete datasets](#) [3] to compare or develop your own analysis.

The Commission presented a [mid-term review](#) [4] of the Digital Agenda for Europe in December 2012.
