

CEF Digital:
Workshop on eDelivery implementation

Use of e-Delivery by TOOP pilots

Dr. Aleksandrs Cepilovs/6 December 2017/Brussels

TOOP Aims to:

- Demonstrate feasibility of cross-border OOP and
- Propose a federated architecture for OOP

Based on:

- Analysis of legal landscape
- Identification of drivers & barriers
- Cost-benefit analysis
- Evaluation of pilots and

Re-using the existing building blocks (CEF; eSens)

TOOP Pilot Scenarios

TOOP

- Cross-border procurement;
- Cross-border business;
- Cross border service-provision.

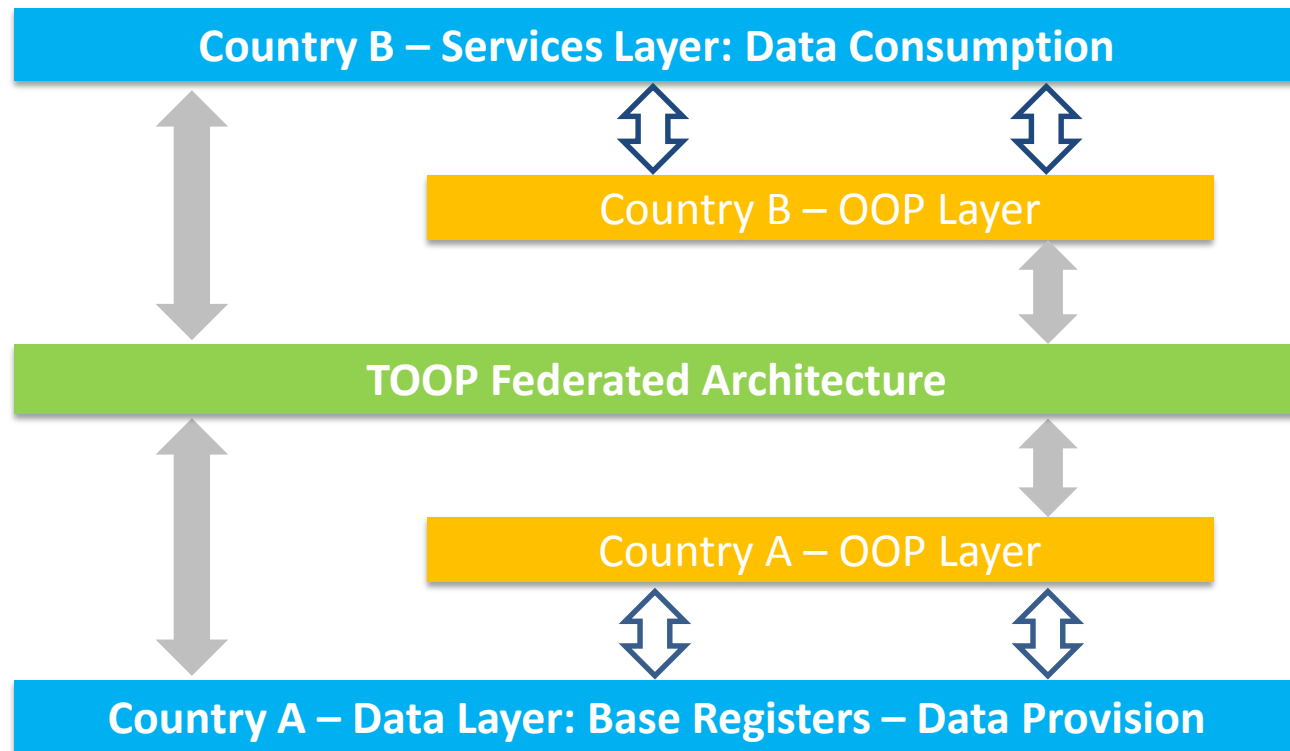

Updating connected company data: Update on demand and update on subscription.

Online Ship and Crew Certificates: Authorised parties can request the certificates through TOOP.

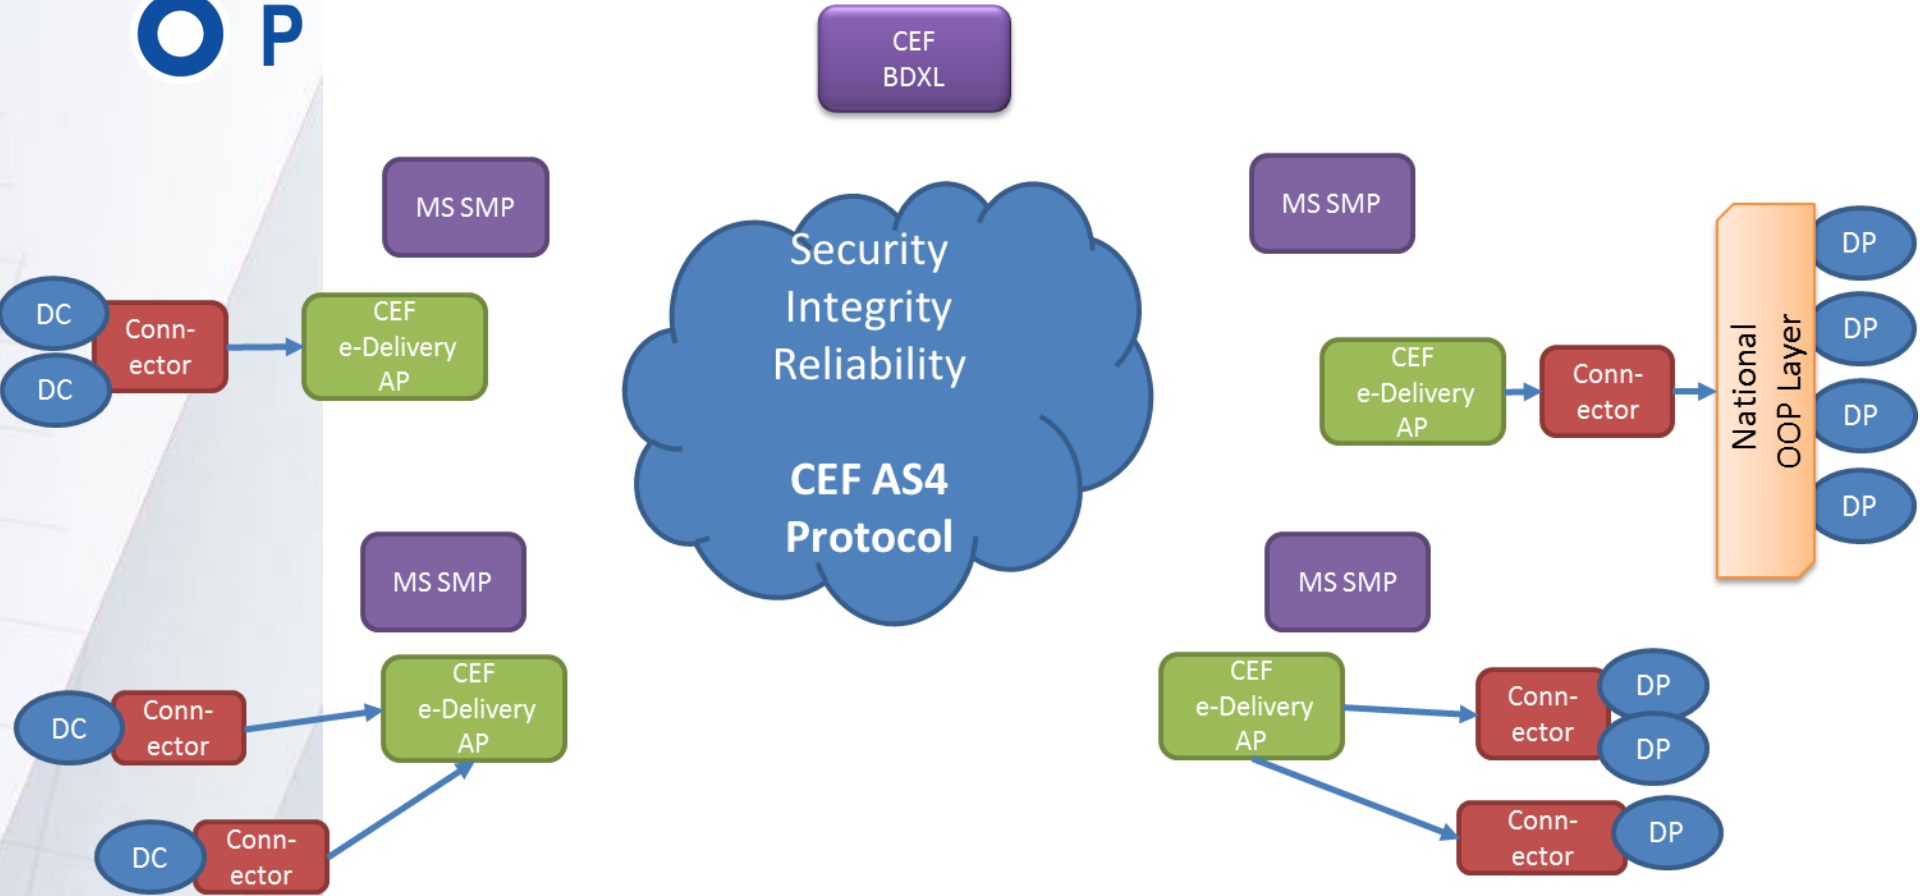

The Cross-Border OOP Case
