Our positioning

Program Action Plan - Ambitions

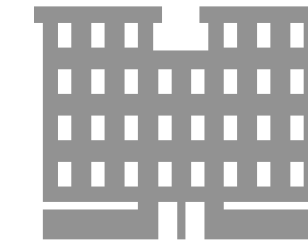

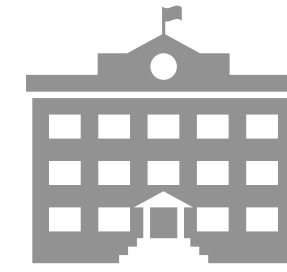

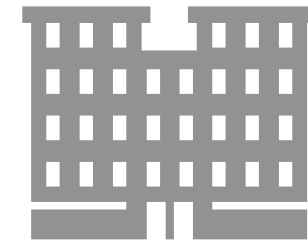

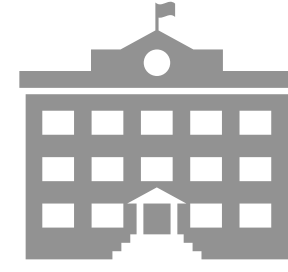

Supported by the Dutch ministry of Internal Affairs and Kingdom Relationships, the RINIS foundation has started an ambitious program in order to increase our European visibility as well as to promote the DSI in the Netherlands. With this program we have three main ambitions:

1. Become the implementing partner in large scaled Dutch governmental programs for European building blocks and services.
2. Become the knowledge partner of the EU for the development and integration of the Digital Service Infrastructure.
3. Become the solution partner for both national as international public organizations for eDelivery, eTranslation, eHealth, Blockchain and TESTA.

Program Action Plan - Objectives

- Stimulate and support initiatives concerning the European interoperability.
- Implement the European as well as the Dutch policies. Where possible by using building blocks and standards.
- Promote the use of building blocks, standards and services regarding the EC guidelines and directives, especially for the Dutch government.
- Develop and maintain relationships with the relevant European DG's and programs.
- Develop and maintain relationships with representatives of the Member States, mainly for topics as eDelivery, eTranslation, eHealth, Blockchain and TESTA.

With Access Control

eDelivery

eDelivery+

What we propose

- Define an Access and API strategy for Europe as part of eDelivery
- Startup API strategy workgroup of experts:
 - Gather requirements on the API strategy
 - Investigate applications of API, (from large scale projects?)
 - Define the eDelivery API strategy
 - Pilot, PoC the eDelivery API strategy
 - Re-define the eDelivery API strategy
 - etc...
- Startup Access strategy workgroup of experts:
 - Gather requirements (etc.)
- Or combine them in an API Access strategy workgroup since they are closely related
- Start today!
