Event: Workshop to launch an Informal Cooperation Network for eDelivery

Created by Ines COSTA, last modified on Jul 11, 2018

Venue: Room 07/A081, Rue Montoyer 15, Brussels

Event summary

The CEF eDelivery team is launching an *Informal Cooperation Network for eDelivery*. The objective of this initiative is to offer a platform for Member States' representatives involved in the setting-up of national eDelivery infrastructures to actively contribute to the adoption of eDelivery at national and EU levels.

In this context, we are currently organising a workshop to officially launch the *Informal Cooperation Network for eDelivery*. The workshop will be held in **Brussels on Wednesday, 16 May 2018**.

The objectives of this workshop are to:

- Officially launch the *Informal Cooperation Network for eDelivery* and define its objectives and operations;
- Share best practices, experiences and lessons learned in the context of the implementation of eDelivery;
- Discuss how to best communicate around AS4/eDelivery;
- Discuss the alignment with other CEF building blocks and other EU initiatives.

If you have any additional comments or questions on the workshop, or generally concerning CEF eDelivery, the Service Offering or grant funding, please reach out to us via Service Desk.

Definition of Mission Statement

Most supported outputs from **Informal Cooperation Network for eDelivery Workshop #1**:

- Promote knowledge sharing and coordination
- Work on interconnection cross-border of eDelivery networks
- Discuss challenges and work together to solve them

Mission Statement

The Informal Cooperation Network is a platform for **Member States' representatives involved in the setting-up of national eDelivery infrastructures to actively contribute to the adoption of eDelivery at national and EU levels.**

The Informal Cooperation Network **aims to promote knowledge sharing, enable collaborative work on cross-border eDelivery networks and facilitate discussion** about common challenges.

eDelivery implementation matrix

Output from **Round table** of the **Informal Cooperation Network for eDelivery Workshop #1** :

- The workshop participants were invited to present and share insights about their governance models for eDelivery and/or data exchange approaches at national level according to the following aspects: **Governance, Operations, Finance and Architecture.**

The matrix below aims to gather information about the eDelivery implementation status at national level. It is a living editable table built by the members of the Informal Cooperation Network for eDelivery.

The aim is to have an as clear and updated as possible picture of the on-going work towards the adoption of eDelivery at national level.

Status

- UNDER REVIEW** - Information compiled by the CEF eDelivery team based on data provided by the respective Informal Cooperation Network member
- INFO NOT AVAILABLE** - Information not available. Please let us know in case you want to share any relevant information (you can use the comments section at the bottom of the page or send an email to CEF-BUILDING-BLOCKS@ec.europa.eu)
- VALIDATED** - Information validated by the respective Informal Cooperation Network member

	Status	Platform/project	Entity(ies) involved	Status	Governance	Architecture	Use of AS4 (Y/N)	Intention to use AS4 (Y/N)	Additional information
1	Austria	VALIDATED	There are currently two eDelivery systems in place in Austria. A general purpose eDelivery system for the public administration and an eJustice system called	General purpose system: Ministry of Digital and Economic Affairs, private eDelivery service providers ERV: in production since 1990.	General purpose system: in production since 2004.		Both systems operate on Web Services based platforms with custom specifications and profiles carrying both metadata of the	N	To be assessed. Potentially use case for eIDAS AP towards systems of other Member States

Online community – What's in it for you?

Online space open to all CEF eDelivery community:

- **Information about Network's members** – list of members of Informal Cooperation Network for eDelivery.
- **Forum section** – allows you to post questions and share information with fellow members of the network and beyond about eDelivery related topics.
- **[eDelivery implementation matrix](#)** – aims to gather information about the eDelivery implementation status at national level. It is a living editable table built by the members of the Informal Cooperation Network for eDelivery. The aim is to have an as clear and updated as possible picture of the on-going work towards the adoption of eDelivery at national level.
- **[Meetings section](#)** - includes information about previous and upcoming meetings of the Informal Cooperation Network for eDelivery.
- **eDelivery news and events** – information about latest eDelivery-related news and events.

Informal Cooperation Network for eDelivery

About the Informal Cooperation Network for eDelivery

The Informal Cooperation Network is a platform for Member States' representatives involved in the setting-up of national eDelivery infrastructures to actively contribute to the adoption of eDelivery at national and EU levels.

The Informal Cooperation Network aims to promote knowledge sharing, enable collaborative work on cross-border eDelivery networks and facilitate discussion about common challenges.

We are still identifying relevant experts from missing Member States to be part of this informal network. Interested experts can apply here to become a member of this network.

Find out more on CEF Digital

ec.europa.eu/cefdigital

The screenshot shows the CEF Digital website homepage. At the top left is the logo for CEF Digital, featuring the European Union flag and the text "CEF Digital Connecting Europe". To the right of the logo is a search bar and two buttons labeled "MENU" and "COMMUNITY". Below the logo is a dark blue header with the text "CEF Digital" and "Part of the Connecting Europe Facility (CEF) programme - enabler of the Digital Single Market". The main content area has a "Latest" section with the headline "BRIS Now Live on the European e-Justice Portal". Below this is a section titled "CEF Building Blocks" with the subtext "Build your digital service faster and cheaper and create a European digital single market." This section contains three columns of information: "eDelivery" (Supporting electronic registered delivery of data and documents), "eID" (Extending the use of online services to citizens of other EU Member States), and "eInvoicing" (Helping public entities adopt the European standard on electronic invoicing). Below these are "eSignature" (Creating and verifying electronic signatures), "eTranslation" (Exchanging information across language barriers in the EU Member States), and "About the building blocks" (Learn more about the CEF building blocks). At the bottom, there is a section for "Sector Specific Digital Service Infrastructures" and "About CEF" (The Connecting Europe Facility (CEF) supports trans-European networks and infrastructures in the sectors of transport, telecommunications and energy. Learn more about CEF Digital Building Blocks).
