Broadband in Member States

Menu

The country pages include current information on the broadband development in each country, national broadband strategies and policies, financial instruments, major projects as well as links to publications and contact information of responsible authorities and Broadband Competence Offices. You can also find the link to the Study on National Broadband Plans in the EU-28, which gives an insight into detailed analyses of connectivity, targets and measures in each country as well as EU-wide comparison. Select a country of your interest on the map or from the list below.

- Austria
- Belgium
- Bulgaria
- Croatia
- Cyprus
- Czech Republic
