The 3rd Digital Agenda Assembly (DAA) happened in 2013

The **Digital Agenda Assembly 2013** was co-organised with the [Irish Presidency of the EU Council](#) [2] and took place on 19th & 20th June in [Dublin Castle](#) [3].

It was an opportunity to go through the themes of the [Digital Agenda for Europe review](#) [4], assess the progress and challenges in implementation and seek ways to improve delivery. We aimed at having an innovative, creative and interactive Assembly to showcase examples from across the EU and collect visions and experiences of policy makers, industry, research organisations, NGOs, SMEs, regulators, Member States representatives.

The main programme concept was the digital lifecycle with an emphasis on digital skills, entrepreneurship and growth. The workshops focused on ICT skills and jobs, public services for the citizens, research & innovation and technology enablers, trust & security, entrepreneurship and the digital single market.

The event hosted seven thematic [workshops](#) [5].

The entire event was filmed, web-streamed, recorded and will be posted on the internet. Photographs were also taken and will be published soon.

There are still lots of ways to **follow-up** the Digital Agenda Assembly 2013:

- Reading the [full report of the event](#) [6].
- Watching [video highlights](#) [7] of the Assembly.
- Subscribing to the [newsletter](#) [8].
- Posting in Twitter, using [#DA13](#) [9]. There are also [specific hashtags](#) [10] for each workshop.

The Digital Agenda Assembly was an annual event for assessing progress and identifying challenges for the Digital Agenda for Europe. It provides a unique opportunity for discussion and networking amongst Digital Society stakeholders, bringing together representatives of authorities from Europe and beyond, European Union institutions, civil society, industry and others to strengthen stakeholder participation and cooperation.
