Prof. Dr. Martin Curley

Vice President at Intel Corporation and Director of Intel Labs Europe

He is a vice president at Intel Corporation and director of Intel Labs Europe, the company's network of more than 40 research labs, development centers and open innovation collaborations spanning the European region. He also serves as a senior principal engineer at Intel Labs Europe, which is charged with helping to advance both Intel research and Europe's ability to compete in the global society. Curley leads Intel's research and innovation engagement with the European Commission and the broader European Union research ecosystem. He is also a co-director of the Innovation Value Institute, an industry-academic open innovation consortium that strives to promote structural change in the way companies and governments achieve value through information technology. Curley has a bachelor's degree in electronic engineering and a master's degree in business studies,

both from University College Dublin, Ireland. He earned his Ph.D. in information systems from the National University of Ireland, Maynooth. Martin Curley is a frequent international keynote speaker on Innovation and Technology
