

Digital Single Market

EventsBrussels, Belgium21 February 2013

'Build, Connect, Grow: Make Business in the Digital Single Market'

Business and usage opportunities that are created by the Large Scale Pilot (LSP) projects for digital public services will be discussed. The event will give an insight on how to be active participants in the coming developments of new Pan-European cross border public services. Some of the topics that are going to be addressed are: What business opportunities exist for ICT industries under the new European Commission's initiatives? What can we learn from LSPs past experience/results, especially concerning the promotion of the Digital Single Market? How can the ICT industry, through the facilitation of LSPs, contribute to economic growth within the EU?
