10th International Conference on Wearable Micro and NanoTechnologies for Personalized Health

The pHealth conference has emerged as the leading international meeting on wearable micro and nano technologies for personalized medicine. Starting in 2004, pHealth has attracted scientists for various technologies, medical doctors, policy makers from the healthcare industry, hospital administration and allied professionals. Collecting a dynamic professional community from Europe and all over the world pHealth has given visibility to the tremendous potential of micro and nano technologies not only for the future of medicine, but also for the improvement of healthcare processes today.
