Workshop: Improving Transparency in Government Decision Making - what targets could be defined?

• How can we best measure transparency and its different forms? • What are the key transparency-related policy measures that might unleash the EU's potential economic growth? • What is the role of technology and eGovernment applications as a means to improve transparency? • What can we learn from Member States' experiences, e.g. what are good examples of how eGovernment improves transparency? • Suggestions for common transparency targets. • Barriers for establishing European (or EU-wide) Transparency Objectives.

Organiser

DG CONNECT/H3 Public Services and European Dynamics
