

Digital Single Market

Event Riga, Latvia 12 September 2012

Digital Agenda for Europe Going Local forum in Latvia

The development and greater use of Information and Communication Technologies (ICT) is one of the priorities in the European Union (EU) long-term strategy "Europe 2020", which aims to promote the smart, sustainable and inclusive economic growth of the EU. This event will offer a platform to discuss the implementation of the "Digital Agenda for Europe". The objective of going local is to focus national attention on the Digital Agenda and its importance for economic growth, job creation and social inclusion among members of EU.
