

Digital Single Market

European Nanoelectronics Forum

Events

20/11/2012 to 21/11/2012

Munich, Germany

This yearly forum brings together key players from industry, academia and public authorities. The topics range from research and technology developments in nanoelectronics, innovation in Europe and the semiconductor market to what lies ahead for the European nanoelectronics industry. Participation to the event is restricted, but a request for an invitation can be sent to the organisers.
