6th Ministerial Conference "Borderless eGovernment Services for Europeans"

Events

17/11/2011 to 18/11/2011

Poznan International Fair, Poland

The Polish Presidency of the European Union and the European Commission are organising the sixth Ministerial eGovernment Conference, entitled "Borderless eGovernment Services for Europeans". The conference will attract approximately 900 top-level stakeholders from around the world: government leaders and officials from national, regional and local levels, industry representatives, civil society and experts. In addition to the conference, an exhibition will be organised which will showcase the most recent European developments in the field of eGovernment – both at national and European level. Each Member State will demonstrate up to three cases according to its own priorities and approaches to eGovernment. The exhibition stand of the European Commission will host the successful Large Scale Pilot Projects which play a very important role in the implementation of cross border services in Europe. They have already demonstrated concrete benefits for citizens, businesses and governments in Europe in areas such as eProcurement, eIdentification, eJustice, mobility of citizens and businesses, etc. Attendance is by invitation only and the number of participants is limited.

Organiser

Ministry of the Interior and Administration of the Polish Presidency of the Council of the European Union and the European Commission
