

Digital Single Market

Workshop: Removing the roadblocks to a pan European market for Public Sector Information re-use

Events

10/05/2011 to 11/05/2011

Brussels, Belgium

The purpose of this workshop is to survey experiences with the re-use of public sector information in Europe and beyond, with a focus on identifying critical obstacles to pan-European interoperability and to the development of pan-European services, and steps to address these obstacles. This workshop is organized within the context of Share-PSI.eu, a multistakeholder initiative towards the Digital Agenda for Europe initiated by W3C and ETSI. Workshop results will be presented at the Digital Agenda Assembly in Brussels.
