EventsBrussels, Belgium27 November 2006 to 28 November 2006

The European Legal Framework for eBusiness and Innovation

This event, organised by the European Commission, will bring together high-level policy makers in Europe, Member States representatives, legal experts and practitioners with the objective to debate how e-business and innovation can be facilitated by a more favourable legal environment. The conference will present the results of recent projects in these fields and the outcome of the ICT task force's working group on "IPR for competitiveness and innovation".
