20/12/2012 to 14/01/2013

# Ex-ante advertising for a negotiated procedure for a service contract of a value below or equal to 60.000€ - Support services to facilitate and catalyse the creation of a Startup Europe Partnership

A call for tenders will be sent soon to 5 candidates identified by the European Commission for a service contract of a maximum value of EUR 60.000

The purpose of this call for tenders is to facilitate and catalyse the creation of a Startup Europe Partnership to provide three main services to web entrepreneurs and web startups:

- Facilitate them the access to advices, expertise and other resources (mentoring programmes, IT resources, financial resources, etc) at European, national and local level
- Offer them social networking and validation opportunities for their ideas
- Help them to scale up their business beyond borders

The contractor will be required to collect resources (in-kind resources, mentoring programmes, advice services, IT resources, financial resources, etc) made available by stakeholders to web entrepreneurs in Europe, to develop a step by step approach to integrate those resources into an online platform, and to ensure the widest possible visibility and media dissemination of this SEP platform.
