Study "Assessment of socio-economic aspects of spectrum harmonisation regarding wireless microphones and cordless video-cameras(PMSE equipment)" - SMART 2012/0019

Call for tenders
20/06/2012 to 20/07/2012

Article 6.6 of the RSPD states that Member states shall examine ways and, where appropriate, take technical and regulatory measures, to ensure that the freeing of the 800 MHz band does not adversely affect programme making and special events (PMSE) users. Additional article 8.5 of the RSPD foresees that Member States shall, in cooperation with the Commission, seek to ensure the necessary frequency bands for PMSE, in accordance with the Union's objectives to improve the integration of internal market and access to culture. The Study should support this task.
