

## Digital Single Market

# Broadband coverage in Europe in 2011

Call for tenders

26/08/2011 to 30/09/2011

A call for tenders will be sent to 5 candidates identified by the European Commission for a service contract of a maximum value of € 60.000 on the subject "Broadband coverage in Europe in 2011". The main objective of the study is to monitor the progress on the broadband coverage objectives of the Digital Agenda (basic broadband access for all by 2013 and high speed broadband access with at least 30 Mbps download speed for all by 2020), i.e. to measure the household coverage of different fixed and wireless broadband technologies with a special focus on Next Generation Access technologies. The Commission will publish the results of the study in the Digital Agenda Scoreboard in May 2012. Deadline for submitting offers is no later than 30 September 2011.
