News from the European Innovation Partnership on Active and Healthy Ageing

The second Invitation for Commitment to the Action Plans of the European Innovation Partnership on Active and Healthy Ageing closed on 28 February 2013. Around 320 commitments have been submitted. The organisations behind the initiatives cover all Member States of the EU and reach beyond. Some of these submissions were put forward by new coalitions; others are expanding already existing commitments and already existing networks. In the coming weeks the European Commission will process the submissions, and evaluate the commitments, consulting the respective Action Groups. All prospective partners who submitted a commitment will be contacted by email.
