News article 23 January 2013

# Selection of Future Emerging Technologies (FET) flagship initiatives

On Monday 28th January at 11.15, Vice-President Neelie Kroes will give a short press conference to announce the two research projects chosen as winners of the FET (Future and Emerging Technologies) Flagships initiative.

[1]

These two projects will together potentially benefit from up to one billion euros of EU funding. The two initiatives were chosen from a shortlist of six by a panel of experts including leading scientists, professors, Nobel prize winners, and industrialists. The press conference will be immediately followed by a technical briefing.
