Share your opinion on the Goldenworkers Roadmap!

News Article

12/11/2012 to 20/11/2012

The Goldenworkers Project, funded by the European Commission's Seventh Framework Programme, aims to structure a beyond state-of-the-art research agenda for ICT and employment for older workers. As it is now entering the final phases of its journey, the project is currently carrying out a survey meant to evaluate the Roadmap developed so far in order to provide an overview of ageing at work in the future and how information and communication technology will shape this.
