

## Digital Single Market

# Download data

Team responsible

[DG CONNECT](#) [1]

Data sets and indicators used or produced and progressively published by DG Connect.

### 1. The Digital Agenda Data Tool

European Commission services selected around hundred indicators, divided into thematic groups, that illustrate key dimensions of the European information society. These indicators allow a comparison of progress across countries as well as over time. You can query and visualise data using The Visualisation Tools (here you can also download selected information in CSV-XLS). You can also download the whole database in CSV, TSV, HTML and RDF-N3/Turtle.

- [Visualisation tool](#) [2]
- [Download data](#) [3]
- [SPARQL endpoint](#) [4]

### 2. Eurostat ICT community surveys

Eurostat organizes two annual community surveys for the collection of data on the information society. Framework Regulation (EC) no. 808/2004 ensures that the data are harmonised. The regulation contains two modules, covering:

- Use of ICT and eCommerce by Enterprises
- Use of ICT by Households and individuals

The complete [Eurostat databases](#) [5] with the results from the surveys on the usage of information and communication technologies in enterprises and households/by individuals are available in MS-Access and EXCEL format, with the description of how to use them, including the [questionnaires](#) [6] used since 2002.

### 3. Open Datasets

DG Connect promotes transparency and re-use of its documents, reports and datasets ([EC Decision 2011/833/EU](#) [7]). The [Open Datasets](#) [8] contain information from the Directorate's administrative activities (i.e. research grants, reports from Member States) and from contracted studies (i.e. raw data from surveys, inventories, statistics). They are easily accessible through:

- A [summary page](#) [8] on this Digital Agenda website
- [DG CONNECT space](#) [9] on the EU Open Data Portal

## 4. Studies

The final reports from the procured studies are made public. The [inventory of the completed studies](#) [10] is accessible either from europa.eu website or from the [EU bookshop](#) [11]. Check the most [recent reports](#) [12].

## Guidelines and templates about formatting statistical data for upload on the digital-agenda-data repository & visualization tool

When preparing statistical data for an upload on the Digital Agenda Data [website](#) [2] you should use the observations template and the metadata templates (including labels, definitions and sources of the indicators). To download the template files and the guidelines please go to the [documentation page of the repository](#) [13] & visualization tool.
