Public Workshop on socio-economic aspects of spectrum harmonization for PMSE equipment

The workshop was conducted by Valdani Vivari & Associati (VVA) Consulting, which carried out the study "Assessment of socio-economic aspects of spectrum harmonization regarding wireless microphones and cordless video-cameras (PMSE equipment)" on behalf of the European Commission. The study covers audio and video Programme Making and Special Event (PMSE) equipment and aims to provide an informed view on options for harmonization of spectrum available for the benefit of wireless microphones and cordless video-cameras.

The study team gave a [presentation](#) [1] to share the results of the study with stakeholders.

Please consult the following [document](#) [2] if you would like to get a further information on the agenda and the [introduction slides](#) [3] by the European Commission.

You can also follow the [video recording](#) [4] of the workshop.
