EventsBrussels, Belgium23 May 2013

# Referencing and Applying Web Content Accessibility Guidelines 2.0 in Different Contexts

This W3C Workshop will explore approaches for using Web Content Accessibility Guidelines (WCAG) 2.0 and its supporting resources in different policy settings and contexts. The Workshop is open to policy-makers, users, developers, accessibility experts, researchers, and others interested in adopting, referencing, and applying WCAG 2.0. Registration is possible until 10 May.
