imaGineFOF2020 - Factories of the Futures towards Horizon 2020

This event is organised as a cross-dissemination event of ongoing projects. It foremost addresses European companies interested in research in the domain of ICT for manufacturing under the aegis of the FP7 Public Private Partnership "Factories of the Future". One of the main objectives is to discuss emerging and novel "out-of-the-box" concepts and ideas for research, development and innovation. Innovation outcomes will be reviewed and future research agendas will be discussed.
