ONLIFE Initiative: Concept Reengineering for rethinking societal concerns in the digital transition

How do we grasp or make sense of the challenges in a hyperconnected era? How can we reengineer key concepts, such as privacy, ownership, responsibility? To contribute to this debate, a group of scholars will release, on February 8, the “Onlife Manifesto”. The speakers from the academic, non-governmental, business and policy-making organisations chaired by Robert Madelin, Director General of DG CONNECT, and Constantijn Van Oranje Nassau, Deputy Head of Cabinet of EC Vice President Neelie Kroes will discuss the hypersonnectivity's challenges.

Organiser

European Commission
