Press release 13 June 2013

# European Commission gives €77 million boost to high-tech manufacturing sector SMEs

The "I4MS" initiative (ICT for Manufacturing SMEs) will help 200 SMEs across Europe, who are either attempting to reduce the risks involved in using advanced technology which is still in its infancy, or are trying to cross the so-called "valley of death" that separates the development of an innovative prototype from a successful product in the market.
