

Digital Single Market

1st DECIPHER PCP Market Consultation Day

Events 28/06/2013 Fira Barcelona, Avenida Rius i Taulet, Barcelona (Spain)

The EU funded DECIPHER project is organizing its first Pre-Commercial Procurement Market Consultation Day for eHealth and mHealth solutions. It will take place on June 28th in conjunction with the MIHealth Forum event in Barcelona. The event will also be recorded and broadcasted online afterwards.

Travelling abroad for short trips or longer stay is more common than ever. As the mobility of people increases, also the need for healthcare services while abroad is increasing.

Through a pre-commercial procurement programme new innovative technologies will be developed to enable the access to personal health information by the caregivers and by the individual when needed.

900.000 Euros

To promote this, the [DECIPHER PCP](#) [1] consortium will run a single joint Pre-Commercial Procurement (PCP) programme and the call to tender - worth 900.000 Euros in total - which will be launched in the autumn of 2013. But before that there is this Market Consultation Day.

European SMEs, spin offs, start ups, large enterprises, research and technology centres, etc active in the sectors of eHealth, mobile applications and security are invited to join the event.

Program

During the Market Consultation Day attendees will be provided with an overview on the DECIPHER procurement objectives, on the Pre-Commercial Procurement process and will have an opportunity to pose questions to the procuring authorities.

The registration to this event is free. The registration form and the most updated information regarding the event are available at the [project website](#) [2].

This event will be held as satellite event of the [MIHealth Forum](#) [3], June 26th- 28th 2013 at Fira Barcelona, Plaza España, Barcelona (Spain).

Interested parties are advised that the registration for attendance at MIHealth Forum can be found at the MIHealth Forum [website](#) [3] and that the Agència de Qualitat i Avaluació Sanitàries provides all the attendees with a special code offering 25% of discount for passes (Discount Code: GN245DLT).

The event will be also recorded and broadcasted online. The link to a recording will be published on www.decipherpcp.eu [4] site approximately one week after the event.

The participation in the Market Consultation Day is not a pre-requisite for participation in the DECIPHER PCP pre-commercial procurement process and does not give advantage to any supplier.

DECIPHER PCP project is co-financed by the European Commission's Seventh Framework Programme (FP7). To know more about the project and the tender please click [here](#) [5].
