Workshop on Flagship Human Brain Project: "A roadmap for Portugal"

The Fundação para a Ciência e Tecnologia and the Champalimaud Foundation's, Champalimaud Neuroscience Programme have the pleasure of announcing a workshop entitled "New Brain Technologies: A roadmap for Portugal"

The aim of this workshop is to present the Human Brain Project (HBP) Flagship, as well as the available details about Funding Calls expected this Autumn and in the beginning of the next year. Further discussions and breakout sessions will aim to identify national teams with potential to participate in the activities of this Flagship in the future and identify the best way to promote this participation.
