Call for tenders 25 June 2013 to 26 July 2013

Study on Broadband Internet Access Cost - SMART 2013/0055

The overall objective of the study is to monitor the price of retail fixed broadband offerings for consumers. The European Commission will use this study to assess whether sector regulation and market developments translate into wider technology choice, more services and better prices for European consumers as well as to compare price levels between Member States and third countries.
