# EHTEL 2013 Symposium 'Sustainable Partnerships for Wellbeing and eHealth'

Events

02/12/2013 to 03/12/2013

EESC, Rue Van Maerlant 2, Brussels, Belgium

The yearly symposium of the European Health Telematics Association (EHTEL) convenes the European eHealth community in the heart of Brussels (Belgium) on 2-3 December 2013.

The symposium will focus on lessons learned and ongoing innovations on sustainable partnerships for wellbeing and eHealth.

Together with European health policy leaders, strategic European projects and initiatives, NGOs, industry representatives and other stakeholders, EHTEL and EESC will explore:

1. the synergies of value added services and shared infrastructures as a partnership for sustainable

healthcare;

2. the partnerships in healthcare and social care as a sustainable support for ageing well and;
3. the new dimension opened up by "open data" an "big data", both for public health policies but also for new sustainable partnerships of patients, citizens and healthcare actors.

This [EHTEL](#) [1] event is kindly hosted by the [EESC](#) [2], the voice of organised civil society in the EU's decision-making process.
