Public consultation on DG CONNECT's facts & figures: report now available

The report on the public consultation on facts and figures for DG CONNECT's best possible impact is now available.

DG CONNECT made a call for evidence. We asked all stakeholders and interested parties to respond to our questionnaire and help us check the evidence on which we base our priority actions in 2013 and beyond.

We would like to thank all the respondents to the public consultation for their time and valuable inputs.

We have collected over 1800 general responses and over 1400 comments on the documents proposed for consultation and carefully analysed them topic by topic.

DG CONNECT is committed to maintaining a dialogue with all stakeholders. The report on the consultation is published [here](#) [1]. The revised performance measures will be published on the 18th September 2013 (<http://ec.europa.eu/dgs/connect> [2]).

Read also the [additional background](#) [3] of the consultation.
