Investment Forum during NEM Summit

Call for expression of interest for entrepreneurs - deadline September 23, 2013

CONNECT is supporting on a continuous basis investment forums in ICT domains. The main aim of these type of activities is to facilitate the interactions between entrepreneurs, start-ups (financed or not through FP7) and investors.

The second edition of the European Investment Forum organised in association with NEM Summit will be addressing this year the following ICT related areas: creative content and technology media. The forum will be organised around two investment sessions where a pool of selected entrepreneurs will pitch in front of the investors, and one entrepreneurship session meant to update the participants on the latest market and technology trends in the media domain.

To be part of this event, the entrepreneurs are invited to expression their interest to participate at this event until **September 23, 2013**.

For more details and the link for application check [the page of the event](#) [2].
