ICT 2013: Create, Connect, Grow

06/11/2013 to 08/11/2013

Previously, we invited you to submit proposals for networking sessions at [ICT 2013](#) ^[1] in Vilnius (6-8 November), a major event bringing together talented ICT researchers with the digital doyenne. These sessions have taken shape thanks to your inputs: A total of 270 proposals were received across the five themes, and 186 projects were selected to take part. Apart from showcasing the achievements of past and current EU research programmes, ICT 2013 will also look forward to Horizon 2020, the next multi-year programme starting in 2014. Neelie Kroes, Vice President of the European Commission, and Dalia Grybauskaitė, President of the Republic of Lithuania will open proceedings on 6 November. Don't miss it.
