

Digital Single Market

Call for proposals 30 October 2013 to 8 January 2014

The FI-CONTENT 2 Open Call

FI-CONTENT 2 is glad to announce the launch of its “Open call”. With an available budget of 1,35 million €, the “Open call” of the FI-CONTENT 2 initiative will select new beneficiaries to be included into the present FI-CONTENT 2 partnership and be involved in developments and experimentation planned in 2014-15.

It is expected that these new partners will complement the three advanced platforms that the FI-CONTENT 2 project is building, for Social Connected TV, Mobile Smart City services, and Pervasive Games, by creating new applications or providing missing technologies to extend the platforms' capabilities.

For further information about the call and guidelines, please visit the Open call section of the FI-CONTENT 2 [website](#) [1].
