Digital Single Market

Press releases17/10/2013

100% basic broadband coverage achieved across Europe - EU target achieved ahead of schedule. Next stop is fast broadband for all.

Every EU household can now have a basic broadband connection, thanks to pan-EU availability of satellite broadband. Satellite connections are now available in all 28 countries meaning every European can take out a satellite subscription, including the three million people not already covered by fixed and mobile broadband networks.
